TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 930—MILK IN THE TOLEDO, OHIO, MARKETING AREA

MISCELLANEOUS AMENDMENTS

Amendment No. 2 to the order, as amended, regulating the handling of milk in the Toledo, Ohio, Marketing Area.

Findings and determinations—(a) *Findings upon the basis of hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the rules of practice and procedure governing the formulation of marketing agreements, and marketing orders, as amended (7 C.F.R. Cum. Supp., 900.1 et seq., 10 F.R. 11791), a public hearing was held upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area. It is hereby found upon the evidence introduced at such hearing, said findings being in addition to the findings previously made upon the evidence introduced at the original hearing on said order and at hearings on the amendments thereto, and to the other findings made prior to or at the time of the original issuance of said order and prior to or at the time of the issuance of the amendments thereto (all of which findings are hereby ratified and affirmed, save only as such findings are in conflict with the findings hereinafter set forth), that:

(1) The order regulating the handling of milk in the said marketing area, as amended and as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the Toledo, Ohio, marketing area a purchasing power equivalent to the purchasing power of

such milk, as determined pursuant to sections 2 and 8 (e) of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices set forth in the said order, as amended and as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended and as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Determinations.* It is hereby determined that handlers (excluding co-operative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order, as amended) of at least 50 percent of the volume of milk covered by this order, which is marketed within the Toledo, Ohio, marketing area, refused or failed to sign the tentatively approved marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the said order, as amended and as hereby amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of the order, as amended and as hereby amended, is approved or favored by at least two-thirds of the producers who, during September 1945 (determined to be a representative period), were engaged in the production of milk for sale in the said marketing area.

TITLE 30—MINERAL RESOURCES

Chapter VI—Solid Fuels Administration for War

[SFAW Reg. 27, Amdt. 6]

PART 602—GENERAL ORDERS AND DIRECTIONS

DISTRIBUTION OF BITUMINOUS COAL PRODUCED IN U. S.

It appears appropriate to make the following changes in the bituminous coal distribution program: (1) To eliminate the preference provisions with respect to coal moving via the Great Lakes, inasmuch as weather conditions preclude

substantial lake movement after December 1, 1945; (2) to revive the first preference on shipments of coal for special purpose use; (3) to revive the second preference on shipments of coal in certain sizes to retail dealers; (4) to permit shippers who have discharged or arranged to discharge their monthly preference obligations to retail dealers to make additional shipments to the retail trade, under certain specified conditions; (5) to prohibit industrial consumers with more than 60 days' supply of coal from receiving more coal from Districts 1-4, inclusive, 6, 9-11, inclusive, and 13 than their monthly consumption requirements; (6) to prohibit industrial consumers of coal produced in Districts 7 and 8 from obtaining more coal from these districts than is permitted by the Stock Limitation Table in effect on and before October 1, 1945; and (7) to relax restrictions on receipts of coal by retail dealers.

Various special directions and statements governing shipments of coal during the months of October and November are being revoked by SFAW Order No. 31, which is being issued today and which will become effective December 1, 1945. Other necessary changes in the distribution program are being made by this amendment to SFAW Regulations No. 27, which will also be effective on December 1. Industrial consumers ordering coal for the month of December shall be guided by the provisions of the order and the regulation, as amended.

The following amendment to SFAW Regulation No. 27 is hereby issued:

1. Paragraph (1) of paragraph (d)¹ of § 602.703 is eliminated in its entirety.

2. A new paragraph is added to § 602.703 to read as follows:

(j) *Additional shipments to retail dealers.* If you are a shipper of coal and you have filled or arranged to fill your monthly obligations to each retail dealer entitled to this second preference, you may distribute among retail dealers of your own selection any coal not required to meet your obligations imposed by this regulation, *Provided*, That:

(1) You shall first report at the beginning of each calendar month the amount of coal which it is contemplated will be available for such additional shipments to retail dealers during the month, and

(2) You shall report at the end of each calendar month the amount of such shipments made to each retail dealer. Such reports shall be forwarded to the appropriate Area Distribution Manager, specified in Subsection (f) of this section.

NOTE: Under paragraph (d) of this section, shippers are required to ship, subsequent to December 1, 1945, in equal monthly amounts, to the maximum extent practicable, the balance of the coal which each retail dealer is entitled to receive up to March 31, 1946, under this second preference. Thus, if a shipper

¹ The present provisions of this paragraph were inserted by Amendment No. 1 to SFAW Regulation No. 27, issued April 6, 1945 (10 F.R. 3798).

contemplates that he will have available for shipment to retail dealers, during any calendar month (December 1945, or January, February and March 1946), coal in excess of 25 per cent of the unfilled balance of his preference obligations to retail dealers, this tonnage must be reported before it may be furnished to retail dealers under this paragraph.

3. Section 602.704, governing shipments of coal moving to docks via the Great Lakes is eliminated in its entirety.

4. The title of paragraph (b)² of § 602.715, and paragraph (1) thereof are amended to read as follows:

(b) *Restrictions on receipts by industrial consumers of coal produced in Districts 1-4, inclusive, 6, 9-11, inclusive, and 13 and high volatile coal produced in Districts 7 and 8.* (1) If you are a consumer of coal whose days' supply exceeds 60 days, you are prohibited from receiving, during any calendar month, any coal produced in Districts 1-4, inclusive, 6, 9-11, inclusive, and 13 in an amount greater than 100 percent of your monthly consumption requirements, without first obtaining permission from the SFAW Area Distribution Manager for the district in which the coal is produced.

NOTE: At the present time a special direction is in effect covering receipts by industrial consumers of coal produced in Districts 10 and 11. So long as that direction or other applicable special directions are in effect, they supersede the provisions of this paragraph.

5. Paragraph (d) of § 602.715 is eliminated in its entirety.

6. The following paragraph is added to paragraph (a) of § 602.717:

A shipper with tonnage available may make additional shipments to retail dealers, although not entitled to preference, under the provisions of paragraph (j) of § 602.703. Retail dealers requiring additional tonnage to meet the needs of their customers should, accordingly, endeavor to supplement their receipts by arranging to order coal from shippers with available surplus.

7. Section 602.718 is eliminated in its entirety.

This amendment shall become effective December 1, 1945. It shall not affect any civil or criminal liabilities incurred under the provisions of the regulation previously in effect.

(E.O. 9332, 8 F.R. 5355; E.O. 9125, 7 F.R. 2719; sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 176 and 58 Stat. 827)

PART 1010—SUSPENSION ORDERS

[Suspension Order S-912]

STENNO RIBBON & CARBON MANUFACTURING CO.

George L. Koehn, doing business as Stenno Ribbon & Carbon Manufacturing Co., is engaged in the manufacture and sale of typewriter and duplicating machine ribbons and other typewriter supplies at 3207 S. W. First Avenue, Portland, Oregon. During the period from October 9, 1944 to March 26, 1945, George L. Koehn applied preference ratings of AA-1 to purchase orders for 30,923 yards, approximately 37 inches wide, and 1,175,000 yards, approximately 1/2 inch wide, of typewriter ribbon cloth, valued at \$22,329.14, with various wholesalers and manufacturers, although he was not entitled to apply such preference ratings, in violation of Priorities Regulation No. 3. George L. Koehn was aware of the provisions of Priorities Regulation No. 3 and his actions constituted grossly negligent violations thereof.

These violations have directed critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered, that:

§ 1010.912 *Suspension Order S-912.* (a) George L. Koehn shall not for a period of three months from the effective date of this order, apply or extend any preference ratings, regardless of the delivery date named in any purchase order to which such ratings may be applied or extended.

(b) George L. Koehn shall cancel immediately all preference ratings which he has applied or extended to orders which have not yet been filled.

(c) All preference ratings, allotments and allocations presently outstanding in connection with orders for delivery of cloth to George L. Koehn or placed prior to the termination date of this order are void and shall not be given any effect by suppliers of George L. Koehn or by any other person. This does not apply to cloth already delivered or in transit for delivery to him on the effective date of this order.

(d) Nothing contained in this order shall be deemed to relieve George L. Koehn from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration except insofar as the same may be inconsistent with the provisions hereof.

(e) The restrictions and prohibitions contained herein shall apply to George L. Koehn, doing business as Stenno Ribbon & Carbon Manufacturing Co., or under any other name, his successors and assigns or persons acting on his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of such action.

(f) This order shall take effect on November 23, 1945.

Issued this 15th day of November 1945.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 32, as Amended Nov. 23, 1945]

INVENTORIES

(a) What this regulation does.

General Restrictions

- (b) Restriction on delivery.
- (c) Restrictions on receipts.
- (d) Restriction on ordering more than needed.
- (e) Adjusting outstanding orders when requirements change.
- (f) Restriction on processing.

Exceptions

- (g) In general.
- (h) Receipts permitted after contract cancellations or cut-backs.

Miscellaneous Provisions

- (i) Previous inventory authorizations.
- (j) Separate inventories.
- (k) Redistribution of excess inventories.
- (l) Violations.
- (m) Revisions of tables.
- (n) Appeals, letters and questions.

§ 944.53 *Priorities Regulation 32—(a) What this regulation does.* This regulation contains the inventory rules formerly in § 944.14 of Priorities Regulation 1 and in CMP Regulation 2. Its purpose is to prevent excessive inventories by restricting ordering, deliveries, receipts and processing of materials in short supply. All kinds of materials are covered including raw or semi-fabricated materials, commodities, equipment, accessories, parts, assemblies or products of any kind, whether or not acquired with priorities assistance.

The general rule on receipts is in paragraph (c) (1), and this is controlling unless a more specific limitation or exception is indicated in Table 1 or 2 or a direction to this regulation, or unless Table 3 (formerly Order M-161) exempts the material entirely. Other exceptions to the inventory limitations are stated in paragraphs (g) and (h) and in directions to this regulation.

General Restrictions

(b) *Restriction on delivery.* No person may deliver any material if he knows or has reason to believe that acceptance of the delivery would be in violation of this regulation.

NOTE: For rule on making or delivering material earlier than required by customers, see Interpretation 3.

(c) *Restrictions on receipts—(1) General rule.* A person may not accept delivery of any material if his inventory of that material is, or will be, more than a practicable minimum working inventory reasonably necessary to meet his own deliveries or to supply his services on the basis of his current or scheduled method and rate of operation.

NOTE: For rule on when material is considered to be in inventory, see Interpretation 4; for rule as to seasonal industries, see Interpretation 1.

(2) *Special rules in Tables 1 and 2.* If Table 1 at the end of this regulation shows a special inventory limit on a particular material or product (either specifically or by reference to another WPB order or regulation), that limitation governs and the restrictions of para-

graph (c) (1) above may be disregarded unless the applicable order or regulation (or a note in Table 1) also states that a practicable minimum working inventory may not be exceeded. The same is true with respect to particular classes of persons shown on Table 2. Where a specific period of time is shown on Table 1 or 2, no person affected may accept delivery of any material specified if his inventory of it is, or will be, more than he needs during the immediate period specified on the basis of his current or scheduled method and rate of operation. Even if an order or regulation is not listed on Table 1 or 2, any specific inventory limits imposed by it must be complied with. If an order or regulation listed on Table 1 or 2 is revoked or a listing removed from the tables all provisions of this regulation, including paragraph (c) (1), are automatically applicable.

(3) *Early delivery of steel, iron products, copper and copper base alloys.* Early delivery, up to 15 days before the requested delivery month, may be accepted from a producer of steel, iron products, copper or copper base alloys (in the forms listed on Table 1), but the producer may not make the early delivery if it would interfere with any rated orders. Other special rules on these materials are explained in Table 1.

(d) *Restriction on ordering more than needed.* (1) A person may not place any order, whether rated or unrated, for delivery of any material on earlier dates or in larger amounts than he would be permitted to receive under this regulation. Orders aggregating more than he is allowed to receive may not be placed with different suppliers even though he intends to cancel one or more of them before delivery. However, this restriction does not apply to materials listed on Table 3 of this regulation nor to purchases by ultimate consumers for personal or household use. The restriction does not forbid the placing of orders for delivery under the conditions explained in Interpretation 11 to Priorities Regulation 1, but such orders may not be scheduled for production as long as this restriction is effective.

(2) This restriction does not require immediate adjustment of orders placed before August 28, 1945. However, in view of its policy to prevent hoarding and speculative buying of materials in short supply, the CPA may direct adjustments or cancellations in individual cases where orders are in excess of reasonably anticipated needs especially where failure to do so might result in unbalanced distribution and curtail total production.

(3) If the inventory limits applying to any material are made more restrictive, whether by a change in Table 1 or otherwise, any person affected must immediately cancel, reduce or defer any order for the material to the extent that the scheduled delivery would result in an inventory greater than permitted by the new restriction and other applicable provisions of this regulation.

(e) *Adjusting outstanding orders when requirements change.* If because of a change in operations, slowing or stoppage of production, delayed delivery

by a supplier, or any other change in requirements, a person who has ordered material for future delivery would, if he accepted delivery on the date specified, exceed the limits prescribed by this regulation, he must promptly adjust his outstanding orders, and, if necessary, postpone or cancel them. Paragraph (h) below describes what further deliveries may be accepted.

(f) *Restriction on processing.* No person may process, fabricate, alloy or otherwise alter the shape or form of any material if his inventory of the material in its processed, fabricated, alloyed or otherwise altered shape or form is, or will be, more than a practicable minimum working inventory. However, this does not restrict a person from altering the form of surplus materials by scrapping or reprocessing them, unless a CPA order specifically says otherwise.

Exceptions

(g) *In general.* This paragraph, paragraph (h) below, and certain directions to this regulation state general exceptions to the restrictions on acceptance of delivery described in paragraph (c) above, and to all other inventory restrictions on delivery and acceptance of delivery in CPA orders and regulations unless they contain specific provisions to the contrary. None of these or any other exceptions to CPA inventory restrictions on receipts permit a supplier to disregard any applicable CPA order or regulation which restricts production or delivery.

(1) *Exemption of Table 3 materials.* Materials listed on Table 3 at the end of this regulation may be delivered and accepted without regard to CPA inventory restrictions.

(2) *Materials bought under PR-13.* Priorities Regulation 13 provides a limited exemption from inventory restrictions in the case of items bought on special sales.

(3) *Imported materials.* A person may import any material without regard to CPA inventory restrictions, but if his inventory of it thereby becomes in excess of the amount permitted by this regulation, he may not receive further deliveries of it from domestic sources until his inventory is reduced to permitted levels. The inventory restrictions of this regulation do apply to any deliveries of the imported material he makes, and to the amount of it that any person accepting delivery from him may receive.

(4) *Advance stockpiling for civilian production.* A person may receive in anticipation of starting or resuming civilian production the minimum amount of material he would need during the first 30 days of such production, provided no priorities assistance is used to get the material. Records of such receipts and the basis on which they were computed must be preserved as required by § 944.15 of Priorities Regulation 1. This 30-day amount is a ceiling as far as advance stockpiling is concerned, and may not be considered as a "bonus" to be added to the amount of any material which a producer expects to have available for making his civilian product. Changes in this 30-day amount may be indicated

for a particular material by a note in Table 1.

(5) *Minimum sale quantities.* Minimum sale quantities and production runs may be accepted to the extent permitted by Interpretation 2. to this Regulation. However, where Column 3 of Table 1 shows a specific amount of a particular material, that is considered to be the minimum sale quantity of it. Thus, if a person would be permitted under paragraph (c) to accept less than the amount shown, he may accept delivery of the full amount. In any event, after receiving a minimum sale quantity of any material, a person may not accept delivery of any additional quantities until his inventory of it is within applicable limits.

(6) *Small inventory exemption for particular materials.* If a note in Table 1 or 2 shows a specific amount of a particular material as a small inventory exemption, a person may accept delivery of any quantities of it as long as his total inventory of it after acceptance is no more than the specified amount.

(h) *Receipts permitted after contract cancellations or cut backs.* Where a person has promptly cancelled or cut back a contract with his supplier as required by paragraph (e) and the supplier is not otherwise prohibited from producing or delivering any material involved, delivery of it may be accepted and the inventory restrictions of paragraph (c) exceeded to the following extent only:

(1) Delivery may be accepted if the supplier has shipped the material or loaded it for shipment before the receipt of the instruction to cancel or cut back; or

(2) Delivery may be accepted of any special item which the supplier actually has in stock or in production or special components or special materials which he has acquired for the purpose of filling that contract. A special item, as used above, means one that the supplier does not usually make, stock, or sell, and which cannot readily be disposed of to others; or

(3) Even if the material is not a special item, delivery may be accepted from a producer if it has already been produced or is in production before receipt of the instruction to cancel or cut back, and it cannot be used to fill other orders on the producer's books.

NOTE: For special rules on continuing receipts of special items after contract cut backs, see Direction 3 to this regulation; and as to transfers of idle materials after cancellations or cut backs, see Direction 1. For effect of reduction in consumption rate on permitted inventories, see Interpretation 5.

Miscellaneous Provisions.

(i) *Previous inventory authorizations.* Any specific authorizations, exceptions, or grants of appeals issued under § 944.14 of Priorities Regulation 1 or CMP Regulation 2 remain in effect according to their terms unless individually modified or revoked.

(j) *Separate inventories.* (1) In figuring his inventory, a person must include all material in his possession and all material held for his account by another person, but not material held by him for the account of another person.

(2) In the case of a person who on August 28, 1945, has more than one operating unit and keeps separate inventory records for them, this regulation applies to each such operating unit or division independently. A person may not make any further separation or consolidation of such operating units without special written approval of the Civilian Production Administration, unless it is purely incidental to a separation or consolidation which is made primarily for other than inventory purposes.

(k) *Redistribution of excess inventories.* Excess inventories of materials and products, including inventories of materials which are in such form as to be unusable by the holder, are subject to redistribution to other persons by voluntary action pursuant to Priorities Regulation 13, or if necessary for national defense, through requisitioning by the Civilian Production Administration.

(l) *Violations.* Any person who willfully violates any provision of this regulation, or who, in connection with this regulation, willfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(m) *Revisions of tables.* Tables 1, 2 and 3, attached to this regulation will be revised from time to time. As materials and products become in more ample supply, it is expected that they will be listed on Table 3. In special cases, particular materials or products may also be removed from Table 3 or added to Table 1. It is, therefore, important to be familiar with the latest revision of the tables.

(n) *Appeals, letters and questions.* Any appeal or other question regarding any provision of this regulation should be sent by letter in duplicate to the Office of Inventory Control and Surplus Utilization, Civilian Production Administration, Washington 25, D. C., Ref.: PR 32, unless Table 1 or 2 attached to this reg-

ulation indicates otherwise with respect to particular materials or classes of persons.

Issued this 23d day of November 1945.

TABLE 1—MATERIALS AND PRODUCTS SUBJECT TO SPECIFIC INVENTORY PROVISIONS

NOTE: Table 1 amended Nov. 23, 1945.

Explanation. Materials or products listed in Column 1 are subject to the specific inventory provisions shown, as explained in paragraph (c) (2) of the regulation, except to the extent that different rules may apply as to certain classes of persons under Table 2.

Column 2 shows either the CPA order or regulation which controls inventories of the material, or if no order is specified, there is shown a period of time representing the maximum inventory permitted as explained in paragraph (c) (2). An asterisk (*) indicates that the practicable minimum working inventory limit of paragraph (c) (1) also applies, that is, if it would be less than the specific limit indicated.

If Column 2 shows a specific period of time (e. g., 30 days, 60 days, etc.) for a particular material or product, this restriction applies only to "users" of that material or product, i. e., persons, including Government operated consuming establishments, who use the material or product for production, operating supplies, maintenance and repair, or for construction both for own account and for the account of another. In addition, the restriction applies only within the 48 States and the District of Columbia.

A figure in Column 3 shows the minimum sale quantity, that is, the amount of the particular material which a person may receive under the conditions stated in paragraph (c) (5), even if it is more than allowed under Column 2. If no figure is shown, the rule in Interpretation 2 must be followed.

Column 4 tells the Division or Office in the Civilian Production Administration to which should be sent any appeals or questions regarding the limitations described. However, if the applicable order says appeals are to be filed somewhere else, such as the nearest CPA field office, that provision controls.

Column 5 (Remarks) gives explanations, exemptions or other special rules applicable to the particular material or limitation.

Material (1)	Order or limitation (2)	Minimum sale quantity (3)	CPA division or office administering the control (4)	Remarks (5)
Aluminum. (See Table 3.)

Cadmium, metallic balls, sticks, slabs and anodes.	45 days*		Tin, lead, and zinc	
Castings, malleable iron. (See Steel, including iron products.)				
Copper and copper base alloys.	(*)			
NOTE: (1) The provisions of this regulation apply separately to each "item" of copper or copper base alloys in any class listed below which is different from all other items in that class by reason of one or more of its specifications, such as width, thickness, temper, alloy, finish, or method of manufacture. Differences in color of insulation do not differentiate items of wire mill products. (2) [Deleted Nov. 23, 1945.]				
**The specific limitations in Column 2 on receipts of copper and copper base alloys do not apply to producers who acquire copper or copper base alloys for the purpose of conversion into another listed form of these materials, but they are subject to paragraph (c) (1). Certain other classes of persons to whom these Column 2 limitations do not apply are shown on Table 2.

TABLE 2—CLASSES OF PERSONS SUBJECT TO SPECIFIC INVENTORY PROVISIONS

NOTE: Table 2 amended Nov. 23, 1945.

Explanation. The classes of persons listed in Column 1 are subject to the specific inventory provisions shown, as explained in paragraph (c) (2) of the regulation.

Column 2 shows either the CPA order or regulation which controls the inventories of the particular class of persons, or if no order is specified, there is shown a period of time representing the maximum inventory permitted as explained in paragraph (c) (2). An asterisk (*) indicates that the practicable minimum working inventory limit of paragraph (c) (1) also applies, that is, if it would be less than the specific limit indicated.

Column 3 tells the Division or Office in the Civilian Production Administration to which should be sent any appeals or questions regarding the limitations described. However, if the applicable order says appeals are to be filed somewhere else, such as the nearest CPA field office, that provision controls.

Column 4 (Remarks) gives explanations, exemptions or other special rules applicable to the particular class of persons or limitation. Where this column specifies certain materials, the limitation or exemption for the particular class of person applies only to the materials specified.

INTERPRETATION 1

INVENTORIES IN SEASONAL INDUSTRIES

Paragraph (c) (1) of Priorities Regulation 32 prohibits any person from accepting a delivery which will give him "more than a practicable minimum working inventory reasonably necessary to meet his own deliveries on the basis of his current or scheduled method and rate of operation". This does not prevent a person engaged in a seasonal industry who normally stocks up inventory in advance of the season from accepting delivery of his requirements of the inventory in question, provided (a) that he is not guilty of hoarding, and (b) that the deliveries accepted are no greater and no further in advance than those which he would normally accept in the ordinary course of his business to meet reasonably anticipated requirements. (Issued Aug. 28, 1945.)

INTERPRETATION 2

MINIMUM SALE QUANTITIES AND PRODUCTION RUNS

(a) *Applicable provisions of the regulations.* Priorities Regulation 32 forbids the making or acceptance of a delivery which will give the customer more than the "practicable minimum working inventory reasonably necessary" for him to make his own deliveries. A similar provision in paragraph (c) (2) of Priorities Regulation No. 3 says that a customer who is applying a rating for which no specific quantities have been authorized may use it only to get the "minimum amount needed."

(b) *Factors to be considered in determining how much can be ordered and delivered.* In determining a customer's minimum inventory "reasonably necessary" under Priorities Regulation 32 or his "minimum amount needed" under Priorities Regulation No. 3, it is proper in some cases to consider not only the immediate needs of the customer's plant but also whether the amount which he orders will be a minimum production run for his supplier. The customer may order and receive (and the supplier may deliver) the customer's requirements for a longer period in advance than he actually needs at the time of delivery if, but only if, it is not practicable for him to get the item from any supplier in the smaller quantities which he presently needs. The supplier may reject his customer's order if it is less than the minimum which he regularly sells or less than his minimum production run of a product which is mass produced under the conditions explained in Interpretation 3 of Priorities Regulation 1.

(c) *Relief in exceptional cases.* If the conditions stated in paragraph (b) above cannot be satisfied but the customer wants to order or accept delivery of more than his actual needs at the time of delivery, he should apply to the War Production Board for permission, stating the facts and why it is not practicable to satisfy the condition of paragraph (b).

(d) *Special provisions for certain materials.* Where a specific minimum sale quantity is shown in Column 3 of Table 1 of Priorities Regulation 32 with respect to any material or product, that quantity controls instead of the rule in this interpretation.

(e) *Specific limits on ratings may not be exceeded.* This interpretation does not apply to the use of a rating where a specific quantity is stated in the instrument assigning the rating. If a person is assigned a rating for a specific amount of material, he may not use it to get more. If he finds that he can only get the material in larger quantities, he should apply for a modification of the rating.

(f) *No effect on contractual rights.* The times and amounts in which deliveries are to be made are to be determined by agreement between the supplier and the customer. Nothing in this interpretation relieves a supplier from fulfilling a contract to make de-

liveries at specified times in specified amounts. For example, if a customer has agreed to buy and a supplier has agreed to furnish 100 units a month for six months, this interpretation does not obligate the buyer to accept 600 units delivered during the first month, although it permits him to do so under the conditions described in paragraph (b). (Issued Oct. 1, 1945.)

INTERPRETATION 3

MAKING OR DELIVERING MATERIAL EARLIER THAN REQUIRED BY CUSTOMERS

(a) Paragraph (b) of Priorities Regulation 32 prohibits a person from knowingly making a delivery which will give his customer more than the latter is permitted to receive under the regulation. Paragraph (f) of that regulation prohibits a person from processing or fabricating material if his inventory of the material in its processed or fabricated form will be more than a practicable minimum working inventory. These two restrictions should be borne in mind by any supplier who wants to make or deliver any material to his customer earlier or in greater quantities than required by the customer.

(b) For example: A supplier has accepted his customer's order of a product to be delivered at the rate of 100 a month for six months. The supplier would like to ship 200 a month for three months, or perhaps the entire 600 in the first month. Since the customer's requirements of 100 a month are presumably all he could accept within the inventory limitations of paragraph (c) of the regulation, the requirement that the supplier may not knowingly ship more than this would prevent him from delivering earlier than required by his customer, unless he received notice from his customer that the receipt of the larger amount would not cause him to have an excess inventory.

(c) Thus, before delivering a material or product substantially earlier or in greater quantities than is called for by his customer's order, a supplier is required to satisfy himself that the receipt by the customer of the changed quantities will be within the permissible inventory limitations applicable to the customer. The supplier may rely on any statement or notice to this effect from his customer, unless he knows or has reason to know that it is false.

(d) Similarly, assuming his customer would not be permitted to receive the larger quantities, the supplier should take this into account in his plans for processing the material or product so that he himself will not have an inventory greater than permitted by paragraph (f) of the regulation.

(e) This interpretation, of course, does not change the rule on delivery or acceptance of minimum sale quantities or production runs to the extent described in Interpretation 2 to this regulation, nor does it prevent earlier delivery of iron products, steel, copper and copper base alloys under the conditions described in paragraph (c) (3) of Priorities Regulation 32. Also, if any WPB order or regulation permits increased deliveries to the extent necessary to avoid shipping partly filled containers (such as paragraph (y) (4) of Order M-300), the rule in this interpretation does not prevent such deliveries. (Issued Oct. 1, 1945.)

INTERPRETATION 4

INVENTORY MATERIAL

(a) Paragraph (c) of Priorities Regulation 32 prohibits a person from accepting delivery of material if his inventory of it is, or will be, greater than the maximum prescribed. For the purpose of this regulation, material is considered to be inventory until it is actually put into process or is actually installed or assembled. Putting into process does not include minor initial operations, such as painting, and does not include any shearing,

cutting, trimming or other operation unless such initial operations are part of a continuous fabricating or assembling operation. Nor does it include operations such as inspection, testing and ageing nor segregation or earmarking for a specific job or operation.

(b) For example, if a manufacturer who uses wire or rod cuts a sufficient quantity of it to length at one time to maintain his operations for a considerable period of time, the cut pieces remain as inventory until processed into another form or until assembled or installed.

(c) If a manufacturer purchases and stores steel castings in the form purchased, the steel castings are not put into process when the castings are painted and stored. Consequently, the inventory of castings includes those painted and stored.

(d) If a manufacturer shears steel sheet and stocks in sheared form, such stock is still part of his inventory, if the material does not continue in production. (Issued Aug. 28, 1945.)

INTERPRETATION 5

EFFECT OF REDUCTION IN CONSUMPTION RATE ON PERMITTED INVENTORIES

(a) Paragraph (c) of Priorities Regulation 32 prohibits the acceptance of delivery of material if a person's inventory of it is, or will be, more than the amount permitted by the regulation. If material is acquired within these restrictions, the regulation does not prohibit the mere possession of an inventory if a change in circumstances makes it greater than the amount permitted. For instance, if based upon current rate of production a manufacturer's permitted inventory of one item of steel is 100 tons and he has in inventory 60 tons, he may receive a further delivery of 40 tons. If after receiving the delivery of 40 tons his rate of consumption, because of contract cancellation or the like, is reduced drastically, the mere fact that he has an inventory of 100 tons, although his permitted inventory may be only 10 tons, is not a violation of the regulation. He may not, of course, accept any further deliveries of that item of steel until his inventory has been reduced below 10 tons (except as provided in paragraph (h) of Priorities Regulation 32 and Direction 3 to that regulation, relating to material already shipped, special items, etc.)

(b) Similarly, the regulation does not affect the liability of a customer for material in inventory when the customer cancels his contract. Such liability is controlled by the provisions of the contract between the customer and his supplier and by contract law. (Issued Aug. 28, 1945.)

PART 1010—SUSPENSION ORDERS

[Suspension Order S-835, as Amended
Nov. 26, 1945]

SPRINGFIELD UNION PUBLISHING CO. AND
REPUBLICAN PUBLISHING CO.

Springfield Union Publishing Company and Republican Publishing Company, corporations doing business in Springfield, Massachusetts, collectively publish Springfield Republican, Springfield Daily News, Sunday Springfield Union-Springfield Republican, Weekly Republican, Springfield Union and Springfield Evening Union in Springfield, Massachusetts. For the purposes of establishing a quota of print paper, all of these newspapers are editions of the same newspaper. Suspension Order S-835 was originally issued on July 2, 1945 against the corporations for violations

of Limitation Order L-240 in having used 1009.45 tons of print paper in excess of their quotas for the first, second, and third quarters of 1943, and the first, third and fourth quarters of 1944. At a further hearing held before a Compliance Commissioner on November 14, 1945, it was determined that the corporations violated the terms of the suspension order by using approximately 100.5 tons of print paper in excess of the amount permitted by paragraph (a) of that order during the third quarter of 1945, and violated Limitation Order L-240 by consuming approximately 47 tons of print paper in excess of the permissible quota during the second quarter of 1945. These actions constituted willful violations of the suspension order and the provisions of Limitation Order L-240.

This excessive use of paper has diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, That: § 1010.835 Suspension Order No. S-835 be amended to read as follows:

§ 1010.835 Suspension Order No. 835.

(a) During the fourth calendar quarter of 1945 the Republican Publishing Co. and the Springfield Union Publishing Co. shall not use or cause to be used more than 1820 tons of print paper in the publication of their newspapers.

(b) During the first and the second quarters of 1946 the Springfield Union Publishing Co. and Republican Publishing Co. shall reduce their consumption of print paper by 100 tons per quarter under the consumption quota they would otherwise be entitled to use in each of these quarters under the provisions of Limitation Order L-240.

(c) Republican Publishing Co. and Springfield Union Publishing Co. shall within 10 days from the date of issuance of this order report to the Manager of the Regional Compliance Department of the Civilian Production Administration in Boston the total amount of print paper which they have used or caused to be used in the publication of their newspapers from October 1, 1945 to the date of the Sunday following the date of issuance of this order, inclusive, and shall report not later than Thursday of each week thereafter the quantity of print paper used in the publication of their newspapers during the preceding week ending with and including Sunday.

(d) Nothing contained in this order shall be deemed to relieve Springfield Union Publishing Company or Republican Publishing Company from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

(e) The restrictions and prohibitions contained herein shall apply to Springfield Union Publishing Company and the Republican Publishing Company, their successors or assigns, or persons acting on their behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

Issued this 26th day of November 1945.

PART 3293—CHEMICALS

[Conservation Order M-300, Direction 4]

SPECIAL PROVISIONS FOR ORDERS FOR PENICILLIN

The following direction is issued pursuant to Conservation Order M-300:

(a) The supply of penicillin is substantially less than present and anticipated military and other requirements, and it has become necessary in order to eliminate serious hazard to life and health, to give preference to certain essential orders for penicillin in accordance with the conditions of this Direction.

(b) *Definitions.* For the purposes of this Direction:

(1) "Penicillin" means a chemotherapeutic agent isolated from *Penicillium notatum*, *P. chrysogenum* and variants. The term includes penicillin in any medicinal tablet, ampoule or other form as well as bulk penicillin in any form.

(2) "Hospital" means any hospital for the treatment of humans located in the United States or its territories or possessions and the Veterans' Administration and the U. S. Public Health Service, but does not include any Army or Navy hospital.

(3) "Producer" means any person who produces penicillin and refers to him with respect to the amount he produces and not with respect to the amount he purchases for resale.

(c) *Preferred orders.*—(1) *Orders to which preference is given.* The following types of orders for penicillin must be treated in all respects as if rated CO:

(i) Any order placed by a hospital, including orders previously placed but not filled on November 23, 1945.

(ii) Any order certified in accordance with subparagraph (2) below. These orders are automatically preferred, and no application for a rating need be filed. A person receiving any order of the type specified may not extend a CO rating, but may place certified orders where permitted under paragraph (c) (2) below.

(2) *Certification.* Any person ordering penicillin to fill orders which he has received from hospitals, or to fill orders which he has received bearing certificates filed under this paragraph, may furnish the supplier with a certificate in the form prescribed below, except that a person who not only produces penicillin but also purchases it for resale, may place certified orders on other suppliers only to the extent that under paragraph (d) below he is not required to fill such orders from his own production. The certificate shall be in substantially the following form: "Certified as required to fill hospital orders under Direction 4 to M-300."

Name of purchaser

By -----
Duly authorized official

The standard certification provided for in Priorities Regulation 7 may not be used instead.

(d) *Quantity of penicillin production for which preference must be given under this direction.* No producer of penicillin need, during any calendar month, deliver on orders preferred by this direction, more than an

amount equal to 40 percent of his preceding month's production of penicillin or 40 percent of his estimated production for that calendar month, whichever is greater.

(e) *Dosage forms.* Each producer shall if possible operate his facilities in such manner as to provide adequate quantities of penicillin required to fill orders placed by hospitals and certified orders in the dosage form specified in such orders. The same rule applies to persons purchasing penicillin for resale who possess facilities for preparing penicillin in dosage form.

(f) *Reports.* Reports of production, stocks and shipments shall be filed within 15 days after the close of each calendar month (reports for October, 1945, shall be filed as soon as possible after issuance of this direction) by every producer of penicillin and by every distributor who buys penicillin from any producer for resale with his (the distributor's) name on the label.

These reports shall be filed on Form WPB-2247 in the following manner:

Specify in the blocks provided the name and address of the company reporting, name of materials, month, unit of measure (billion Oxford units), and whether producer or distributor (or both).

In section I, show in column 1, Army parenteral, Army bulk, Army other dosage forms, Navy parenteral, Navy bulk, Navy other dosage forms, Export parenteral, export bulk, export other dosage forms, domestic civilian parenteral, domestic civilian bulk, domestic civilian other dosage forms, and list the quantities actually shipped in each of these categories in column 4 (change heading to read "quantity shipped"). Do not show individual customers names. Leave columns 1a, 5, 5a, 6 and 7 blank.

In section II list in column 9 production (total units of penicillin) irrespective of type of salt or dosage form) during the month for which the report is filed and in column 10 stocks as of the first day of the current month. Leave other columns blank. Persons who are both producers and distributors should exclude from the figures reported in columns 9 and 10, any material purchased from others.

The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(g) *Communications to Civilian Production Administration.* Communications concerning this direction shall be addressed to the Civilian Production Administration, Chemicals Division, Washington 25, D. C. Ref: M-300, Direction 4.

PART 3293—CHEMICALS

[General Allocation Order M-300, Schedule 71, as Amended Nov. 23, 1945]

ETHYL ALCOHOL

Section 3293.1071 Schedule 71 to General Allocation Order M-300 is hereby amended to read as follows:

§ 3293.1071 *Schedule 71 to General Allocation Order M-300*—(a) *Definitions.* For the purposes of this schedule: (1) "Ethyl alcohol" means the product of that name, from whatever source derived. The term includes mixtures of ethyl alcohol and denaturants, includ-

ing the product known as "proprietary solvent". The term does not include ethyl alcohol which has been tax paid for beverage purposes, nor does the term include ethyl alcohol imported into the continental United States unless it was imported tax free for industrial purposes under section 3125 of the Internal Revenue Code.

(2) "Primary supplier" means any person engaged in the production of ethyl alcohol under an industrial alcohol permit issued by the Bureau of Internal Revenue, any importer, the Reconstruction Finance Corporation, or any other government agency, except with respect to special sales under PR 13.

(b) *General provisions.* Ethyl alcohol is subject to the provisions of General Allocation Order M-300 as an Appendix B material except ethyl alcohol produced in the states of Washington, Oregon, California, Arizona, New Mexico, Nevada, Utah, Colorado, Wyoming, Idaho, Montana, or imported into those states from outside of the continental United States. The initial allocation date is October 1, 1943, when ethyl alcohol first became subject to allocation under Order M-30 (now revoked). For the purpose of this schedule the restrictions applicable to "suppliers" under Order M-300 apply for allocation periods beginning on or after December 1, 1945, only to "primary suppliers" as defined in paragraph (a) (2) above and do not apply to deliveries of ethyl alcohol for beverage purposes. The allocation period is the calendar month.

(c) *Transition from Appendix C to Appendix B control.* For calendar months prior to December 1, 1945, allocation control of ethyl alcohol is as an Appendix C material, and for calendar months beginning with December 1945, allocation control of ethyl alcohol produced in states other than Washington, Oregon, California, Arizona, New Mexico, Nevada, Utah, Colorado, Wyoming, Idaho, Montana, or imported into other states from outside the continental United States is as an Appendix B material. Regular and interim authorizations issued under Appendix C control on Form WPB-2947 to deliver are not affected by the change to Appendix B control.

Authorizations issued under Appendix C control on Form WPB-2945 to accept delivery are not effective after November 30, 1945, since authorization to accept delivery is not required under Appendix B control.

(d) *Deliveries by Reconstruction Finance Corporation.* Deliveries for each calendar month by the Reconstruction Finance Corporation will be authorized by the Civilian Production Administration and delivery may not be made without such authorization but no application need be filed by the Reconstruction Finance Corporation.

(e) *Primary suppliers' applications on Form WPB-2947.* Each primary supplier, except the Reconstruction Finance Corporation, seeking an authorization to deliver or use ethyl alcohol for industrial purposes shall file application on Form WPB-2947. Filing date is the 15th day of the month before the month in which

delivery or use is proposed to be made. Send four copies (one certified) to the Civilian Production Administration, Chemicals Division, Washington 25, D. C., Ref: M-300-71. The unit of measure is gallons. Notwithstanding the instructions on Form WPB-2947, the supplier should file a consolidated return including all points within the area covered by this schedule from which shipments are to be made instead of separate applications for each plant and warehouse.

In section 1 state the aggregate quantity which you wish to deliver or use for industrial purposes without giving customers' names or primary products or end uses. State also what portion of this quantity you wish to purchase from the Reconstruction Finance Corporation for industrial purposes. Fill in section 2 as indicated. Do not include in Section 2 any figures covering ethyl alcohol which has been or will be tax paid for beverage purposes or delivered in bond for the purpose of tax paying for beverage purposes. The Civilian Production Administration will release an aggregate quantity for industrial purposes pursuant to paragraph (f) of Order M-300.

(f) *Certified statements of use.* The usual end use certificates required for Appendix B materials are not required for ethyl alcohol.

(g) *Beverage spirits—(1) Tax payment, and deliveries in bond, for beverage purposes.* Any person may tax pay ethyl alcohol for beverage purposes, and any producer may deliver in bond ethyl alcohol to any person authorized under the rules and regulations of the Bureau of Internal Revenue to receive ethyl alcohol in bond for the purpose of tax paying the same for beverage purposes.

(2) *Acceptance of delivery in bond for beverage purposes.* Any person may accept delivery of ethyl alcohol in bond for the purpose of tax paying the same for beverage purposes if that person is authorized to do so under the rules and regulations of the Bureau of Internal Revenue.

(h) *Budget Bureau approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(i) *Communications to Civilian Production Administration.* Communications concerning this schedule shall be addressed to the Civilian Production Administration, Chemicals Division, Washington 25, D. C., Ref: M-300-71.

ARTICLE I—EXPLANATION OF THE SUPPLEMENT

SECTION 1. *Explanation of the supplement.* (a) This supplement establishes maximum prices for sales of the flavors of fruit preserves, jams and jellies listed in section 4 (a), and of apple butter, by all persons except wholesalers and retailers (wagon wholesalers, however, are included). However, sales and deliveries of products covered by this supplement by a processor in any calendar year in which his total volume of sales of the products does not exceed 500 quarts (or an equivalent amount in other container sizes) are not subject to the maximum prices or other requirements imposed by

this supplement or any other maximum price regulation.

(b) This supplement applies in the 48 States of the United States and the District of Columbia.

(c) This supplement supersedes the provisions of all other maximum price regulations as to the commodities and sellers covered.

(d) This supplement becomes effective November 28, 1945.

SEC. 2. *Applicability of Food Products Regulation No. 1.* Important: Not all of the provisions affecting the maximum prices of the designated flavors of fruit preserves, jams and jellies and of apple butter are stated in this supplement. Those which are not specifically set forth here are stated in Food Products Regulation No. 1, and they are just as much a part of this supplement as if they were printed here. The "Explanation of the Regulation" is also a part of this supplement.

The particular sections of Food Products Regulation No. 1 which are applicable to this supplement are listed at appropriate places in the following provisions (in each case the section number set forth in parentheses is the appropriate section number of Food Products Regulation No. 1). When any applicable section of the regulation is amended, the amendment also is applicable to this supplement.

SEC. 3. *Definitions.* (a) When used in this supplement, the term:

(1) "Fruit preserves and jams" means any viscous or semi-solid food obtained by concentrating a mixture of fruit and saccharine ingredients in which the fruit ingredient is not less than 45 parts and the saccharine ingredients not more than 55 parts by weight, as defined by the Regulation Fixing and Establishing Definitions and Standards of Identity for Preserves, Jams, Issued under the Federal Food, Drug, and Cosmetic Act of 1938 and printed in the FEDERAL REGISTER on September 5, 1940.²

(2) "Fruit jellies" means any semi-solid food of gelatinous consistency obtained by concentrating, by the application of heat, a mixture of fruit juice or diluted or concentrated fruit juice and saccharine ingredients, in which the fruit juice is not less than 45 parts by weight and the saccharine ingredients not more than 55 parts by weight, as defined by the Regulation Fixing and Establishing Definitions and Standards of Identity for Jellies, Issued under the Federal Food, Drug, and Cosmetic Act of 1938 and printed in the FEDERAL REGISTER on September 5, 1940.³

(3) "Apple butter" means the smooth, semi-solid food having a characteristic apple flavor obtained by cooking a mixture of the strained edible portion of apples and saccharine ingredients, consisting of not less than 5 parts, by weight, of apple ingredient (calculated on a fresh fruit basis using an average percentage of soluble apple solids of 13.7 percent) to 2 parts, by weight, of saccharine ingredients. The product may be prepared

with or without any of the following: Apple juice, lemon juice, lime juice, citric acid, lactic acid, malic acid, tartaric acid and salt. Saccharine ingredients may be any of the following: (i) Sugar, (ii) invert sugar sirup, (iii) brown sugar, (iv) invert brown sugar sirup, (v) honey, (vi) corn sirup, (vii) any combination of two or more of (i), (ii), (iii), (iv), (v) and (vi), but if honey is a component the weight of its solids is not less than $\frac{2}{5}$ of the weight of the solids of the combination; or (viii) any combination of corn sugar or dextrose and (i), (ii), (iii), (iv), (v), (vi) or (vii), but if honey is a component the weight of its solids is not less than $\frac{2}{5}$ of the weight of the solids of the combination. Apple butter is further defined by the Regulation Fixing and Establishing Definitions and Standards of Identity for Fruit Butters, issued under the Federal Food, Drug, and Cosmetic Act of 1938,⁴ and published in the FEDERAL REGISTER on September 5, 1940.

(4) "Fruit," as applied to fruit preserves, jams and jellies, includes berries.

(5) "Variety" means a kind of fruit or berry.

(6) "Basic wage rate" means the single rate or established range of rates applicable to a given job classification for straight time, day operation as included in the basic wage rate schedule covering all job classifications in a factory.

(b) The definitions of the following terms, set forth in the designated sections of Food Products Regulation No. 1, are applicable to this supplement:

"Person" (section 1.1 of FPR 1).
"Processor" (section 1.2 of FPR 1).
"Distributor" (section 1.3 of FPR 1).
"Repacker" (section 1.4 of FPR 1).
"Wholesaler" and "retailer" (section 1.6 of FPR 1).
"Ultimate consumer" (section 1.7 of FPR 1).
"Item" (section 1.8 of FPR 1).
"Container type" (section 1.9 of FPR 1).
"Sale" (section 1.10 of FPR 1).
"Price" (section 1.11 of FPR 1).
"Records" (section 1.14 of FPR 1).

ARTICLE II—PRICING PROVISIONS

SEC. 4. *Maximum prices for sales of fruit preserves, jams and jellies by processors—(a) Flavors covered by this supplement and general explanation of pricing methods.* The flavors of fruit preserves, jams and jellies covered by this supplement are those processed from the following varieties of fruit:

Apple	Grape
Apricot	Loganberry
Blackberry	Peach
Bryonberry	Pineapple
Cherry	Plum
Crabapple	Prune
Currant	Raspberry
Elderberry	Strawberry
Gooseberry	Youngberry

Also covered are mixed flavors processed from any two or more of the listed varieties of fruit.

For an item covered by this section, the processor figures his maximum price for sales to purchasers other than government procurement agencies under the particular paragraph listed below which is applicable to the item being priced:

To price an item sold during the applicable 1941 base period specified in

² 9 F.R. 6711; 10 F.R. 11298, 12446.

³ 5 F.R. 3554.

⁴ 8 F.R. 3558.

⁵ 8 F.R. 3531.

§ 1341.302 (b) (2) of Maximum Price Regulation 226⁸ and for which the processor figured a maximum price under the general formula provisions of Maximum Price Regulation 473,⁹ see paragraph (b), below.

To price an item sold during the applicable 1941 base period specified in § 1341.302 (b) (2) of Maximum Price Regulation 226 and for which the processor figured a maximum price under the general formula provisions of that regulation but did not figure a maximum price under Maximum Price Regulation 473, see paragraph (c), below.

To price an item for which the maximum price under Maximum Price Regulation 226 was determined by using a competitor's maximum price, or for which the maximum price under that regulation or Maximum Price Regulation 473 was determined by specific authorization or the elective pricing method, and to price any item that cannot otherwise be priced, see paragraph (f), below.

The processor shall figure a maximum price for each factory at which he processes the item being priced. (However, he may then elect to combine prices as provided in section 8 (e), below.)

(b) *General rule for pricing items sold during the applicable 1941 base period and for which maximum prices were figured under the general formula provisions of Maximum Price Regulation 473.* In general, this paragraph applies to the pricing of items which the processor sold during the applicable base period specified in § 1341.302 (b) (2) of Maximum Price Regulation 226 and for which he figured maximum prices under the general formula provisions of Maximum Price Regulation 473. It does not apply to items which were priced under Maximum Price Regulation 226 by using competitors' maximum prices (and then taking competitors' adjustments for raw materials under Maximum Price Regulation 473), nor to items which were priced by individual authorization or the elective pricing method under Maximum Price Regulation 226 or 473.

For sales of an item to purchasers other than government procurement agencies, the processor shall figure his maximum price per dozen containers or other unit, f.o.b. shipping point, as follows. He shall:

(1) *Start with the base price under Maximum Price Regulation 473.* The processor shall use as his starting point his base price under section 2 (b) (1) or (2) of Maximum Price Regulation 473. Where his base price under section 2 (b) (1) of Maximum Price Regulation 473 is a separate maximum price figured for a separate class of purchasers under § 1341.302 (f) or (g) of Maximum Price Regulation 226, he shall use that price as his starting point. He shall not start with a base price under section 2 (b) (1) of Maximum Price Regulation 473 figured for sales to the United States or its agencies under § 1341.302 (h) of Maximum Price Regulation 226.

(2) *Add permitted increase for raw material costs under Maximum Price Regulation 473.* Next, the processor shall add his permitted increase for raw material costs as required to be figured under section 2 (c) of Maximum Price Regulation 473.

(3) *Adjust for approved 1943 increases in wage rates.* Next, the processor shall adjust the resulting figure for the 1943 increase in wage rates if he incurred a wage rate increase approved by the War Labor Board or under the Fair Labor Standards Act and made effective after January 1, 1943, but before January 1, 1944. The adjustment is made by multiplying by the appropriate figure named in the following table for the area in which his factory is located.

Area	States	Multiply by—
1	Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia and West Virginia	1.02
2	All other States	1.015

(4) *Subtract 2%.* Next, the processor shall subtract from the resulting figure 2% of that figure.

(5) *Subtract the raw material cost under Maximum Price Regulation 473.* Next, the processor shall subtract the lawful cost per dozen or other unit for raw materials used in figuring his maximum price for the item under section 2 (b) and (c) of Maximum Price Regulation 473. The deduction shall include any transportation and hauling charges for raw material used in establishing that maximum price.

Explanation of what is meant by the term "lawful cost per dozen or other unit for raw materials used in figuring his maximum price for the item under section 2 (b) and (c) of Maximum Price Regulation 473." (i) In the case of a fresh or frozen fruit listed in section 2 (c) (1) of Maximum Price Regulation 473 (for example, fresh blackberries), the term means the appropriate figure named in the applicable table in that section, after conversion to cents per unit of the finished product.

(ii) In the case of a fresh, frozen or packed fruit covered by section 2 (c) (2) of Maximum Price Regulation 473—for example, fresh currants), the term means the weighted average cost delivered at the factory of the particular variety of 1943 fresh, frozen or packed fruit purchased or contracted for during and prior to the applicable 1943 base period (after conversion to cents per unit of the finished product), as required to be figured under and subject to the limitations of that section.

(iii) In the case of a flavor processed from more than one variety (for example, cherry and peach) or more than one type (for example, fresh and frozen strawberries), the term means the sum of (a) the weighted average cost delivered at the factory of 1943 fruit purchased or contracted for during and prior

to the applicable 1942 base period, as required to be figured under § 1341.302 (a) (3) of Maximum Price Regulation 226, and (b) the amount of the permitted increase for raw material costs for the flavor in question (after conversion to cents per unit of the finished product), as required to be figured under section 2 (c) (3) of Maximum Price Regulation 473.

(6) *Add the 1945 raw material cost.* Next, the processor shall add to the resulting figure his weighted average cost delivered at the factory of 1945 fruit purchased or contracted for prior to the time of figuring the maximum price under this supplement, after conversion to cents per unit of the finished product.

(i) In figuring the weighted average cost delivered at the factory of 1945 fruit purchased or contracted for prior to the time of figuring the maximum price under this supplement, the processor shall exclude from the computations any amounts paid for fruit in excess of the following amounts (after conversion to cents per unit of the finished product):

(a) For the frozen fruits listed below, the maximum price named in the supplement to Food Products Regulation No. 1, applicable at the time of purchase, for sales by processors on a no-storage basis for the particular variety, in barrels, plus the seller's increase for storage under that supplement and the amount of any transportation charges actually incurred by the processor from the supplier's shipping point to the processor's factory.

Frozen blackberries
Frozen boysenberries
Frozen red sour pitted cherries
Frozen gooseberries
Frozen loganberries
Frozen raspberries
Frozen strawberries
Frozen youngberries

(b) For all packed and frozen fruit (other than those listed in (a), above), the maximum prices which the processor's supplier or suppliers were entitled to charge him under the supplement to Food Products Regulation No. 1, or other maximum price regulation, applicable at the time of purchase, in the respective sales by which they were acquired by the processor, plus the amount of any transportation charges actually incurred by the processor from the supplier's shipping point to the processor's factory.

(c) For the following fresh fruits, a weighted average raw material price no higher than the appropriate average price designated for payment to growers by the Department of Agriculture, as set forth below, except that for the quantities of any fruit actually purchased by grade or district classification announced by the Department of Agriculture, a weighted average raw material price for those purchases shall be included in the weighted average raw material cost, figured on the basis of the weighted average price actually paid for each grade or district classification but not in excess of the price named below for that grade or district classification.

			Elberts, Cervantes and Redheart, stemmed	All States	\$0.17 per pound.
			Others, stemmed	All States	\$0.15 per pound.
			Youngberries	All States	\$0.12 per pound.

¹ These weighted average raw material prices apply whether the processor buys the strawberries stemmed or unstemmed. If he buys the strawberries unstemmed, he may not add any cost of stemming.

² The raw material prices named in the table above refer to designated prices delivered to the processor's customary receiving point. The actual transportation charges incurred from the processor's customary receiving point to his factory shall be added to the amount named at the customary receiving point. The location of the processor's customary receiving point is controlling in determining the applicable price in the table, and not the place where the raw material is grown or his factory located. However, if the processor purchases the raw material in an area other than that in which

his customary receiving point is located, the applicable price in the table is the price named for the area in which the raw material is grown, and he shall add to this amount the actual transportation charges that would have been incurred in moving the goods from his customary receiving point to his factory.

"Delivered to the customary receiving point" means delivered to place where the processor received delivery of the raw material during 1941. If the processor had no customary receiving point during that year, "delivered to the customary receiving point" means delivered to the nearest place where processors of the same raw material, whose factories are located in the same producing area, received delivery during that year.

(d) For a flavor processed from 1945 fruit of more than one variety or more than one type, the appropriate amount for the number of pounds or other unit used of each variety and type, in accordance with (a) (b) and (c), above.

(ii) "1945 fruit" includes only fresh fruit and packed and frozen fruit of the 1945 pack.

(iii) "Packed", as used in this paragraph (b) (6), refers to fruit that has been canned or otherwise processed, but does not include frozen fruit.

(7) Adjust for approved increases in basic wage rate. Finally, the processor shall multiply the resulting figure by the appropriate labor increase factor named in the table below if he has incurred an increase in basic wage rate approved by

the War Labor Board, and if the increase became effective on or after January 1, 1944, and before August 18, 1945. An increase in basic wage rate will be considered to have occurred only if the single rate or the mid-point of the range of rates for unskilled female labor has been increased.

Area	States	Multiply by—
1	Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia	1.029
2	All other States	1.024

The resulting figure is the processor's maximum price per dozen containers or other unit, f. o. b. shipping point, for sales to purchasers other than government procurement agencies.

(c) Rule for pricing items in certain cases where the processor did not figure maximum prices under the general formula provisions of Maximum Price Regulation 473. In general, this paragraph applies to the pricing of items which the processor cannot price under paragraph (b), above, for the reason that he did not figure a maximum price under the general formula provisions of Maximum Price Regulation 473 but for which he figured a maximum price under the general formula provisions of Maximum Price Regulation 226. It does not apply

to items which were priced under Maximum Price Regulation 226 by using competitors' maximum prices or by individual authorization or the elective pricing method under Maximum Price Regulation 226 or 473.

For sales of an item to purchasers other than government procurement agencies, the processor shall figure his maximum price per dozen containers or other unit, f. o. b. shipping point, as follows. He shall:

(1) *Start with his maximum price under Maximum Price Regulation 226.* (i) The processor shall use as his starting point his maximum price for the item, f. o. b. shipping point, as required to be figured under Maximum Price Regulation 226. Where the processor figured a separate maximum price for a separate class of purchasers under § 1341.302 (f) or (g) of that regulation, his starting point shall be the maximum price so figured. He shall not start with a maximum price for sales to the United States or its agencies figured under § 1341.302 (h) of Maximum Price Regulation 226.

(ii) Instead of using the maximum price ordinarily required by (i), above, the processor, at his election, may use as his base price for a listed flavor which he also processed in 1942, the following figure:

(a) For a unit of one dozen one-pound glass jars, the appropriate figure named in the following table:

Flavor:	Price
Currant jelly.....	\$2.05
Grape jelly.....	1.53
Apricot preserves.....	2.00
Cherry preserves.....	1.96
Grape preserves.....	1.52
Peach preserves.....	1.91
Strawberry preserves.....	2.25
Blackberry preserves.....	2.11
Raspberry preserves.....	2.19

(b) For a unit of one dozen glass containers of any other size not larger than a 32-ounce jar, a figure determined by adjusting the base price named for the flavor in the table in (a), as follows:

Deduct the container cost. The processor shall subtract the direct cost of the containers from the price named for a unit of one dozen one-pound jars. "Direct cost of the containers" means the net cost, as of September 30, 1943, at the processor's factory, of the containers, caps, labels and proportionate part of the outgoing shipping carton, but it does not include costs of filling, closing, labeling or packing.

Adjust for any difference in contents. The figure obtained by this deduction shall be adjusted by dividing it by the number of ounces or other units in one dozen one-pound jars and multiplying the result by the number of the same units in one dozen of the container size being priced.

Add the new container cost. Next, the processor shall add to the adjusted figure the "direct cost of the containers" in the size being priced.

(2) *Subtract the raw material cost under Maximum Price Regulation 226.* Next, the processor shall subtract the weighted average cost delivered at the factory of 1942 fruit purchased or contracted for during and prior to the applicable 1942 base period, as required to be figured under § 1341.302 (a) (3) of Maximum Price Regulation 226.

(3) *Add the 1945 raw material cost.* Next, the processor shall add to the resulting figure his weighted average cost delivered at the factory of 1945 fruit purchased or contracted for prior to the time of figuring the maximum price under this supplement; after conversion to cents per unit of the finished product. This cost shall be figured in the same manner and subject to the same limitations as provided in paragraph (b) (6), above.

(4) *Adjust for approved 1943 increases in wage rates.* Next, the processor shall adjust the resulting figure for the 1943 increase in wage rates if he incurred a wage rate increase approved by the War Labor Board or under the Fair Labor Standards Act and made effective after January 1, 1943, but before January 1, 1944. The adjustment is made by multiplying by the appropriate figure named in the table in paragraph (b) (3), above.

(5) *Subtract 2%.* Next, the processor shall subtract from the resulting figure 2% of that figure.

(6) *Adjust for approved increases in basic wage rate.* Finally, the processor shall multiply the resulting figure by the appropriate labor increase factor named in the table in paragraph (b) (7), above, if he has incurred an increase in basic wage rate approved by the War Labor Board, and if the increase became effective on or after January 1, 1944, and before August 18, 1945. An increase in basic wage rate will be considered to have occurred only if the single rate or the mid-point of the range of rates for unskilled female labor has been increased.

The resulting figure is the processor's maximum price per dozen containers or other unit, f. o. b. shipping point, for sales to purchasers other than government procurement agencies.

(d) *Adjustment of raw material costs by processors who obtained permitted increases from comparable processors pursuant to § 1341.302 (f) of Maximum Price Regulation 226.* A processor who during the applicable 1941 base period sold the item being priced only to ultimate consumers (other than industrial, institutional and commercial users) and obtained his permitted increase pursuant to § 1341.302 (f) of Maximum Price Regulation 226 from the nearest comparable processor who sells to retailers or wholesalers, in figuring a maximum price under paragraph (b) or (c), above, shall adjust for raw material cost in the following manner.

(1) If he is figuring his maximum price under paragraph (b), instead of making the subtraction and addition ordinarily required by paragraph (b) (5) and (6) he shall add the amount (converted to retail units on the basis of his own yields) arrived at by subtracting (i) the raw material cost under Maximum Price Regulation 473 that his most closely competitive processor who sells to retailers or wholesalers is required to subtract under paragraph (b) (5), from (ii) the 1945 raw material cost that the same processor is required to add under paragraph (b) (6).

(2) If he is figuring his maximum price under paragraph (c), instead of

making the subtraction and addition ordinarily required by paragraphs (c) (2) and (3), he shall add the amount (converted to retail units on the basis of his own yields) arrived at by subtracting (i) the raw material cost under Maximum Price Regulation 226 that his most closely competitive processor who sells to retailers or wholesalers is required to subtract under paragraph (c) (2), from (ii) the 1945 raw material cost that the same processor is required to add under paragraph (c) (3).

(3) Normally, the "most closely competitive processor" mentioned above will be the same processor from whom the processor obtained his permitted increase under § 1341.302 (f) of Maximum Price Regulation 226. In each case, however, the competitive processor shall be one who figured his maximum price under the same method (paragraph (b) or (c), above) that is being used by the processor. Furthermore, where the 1945 raw material prices for fresh fruit named for the product in paragraph (b) (6) (i) (c), and used by the processor in the flavor being priced, differ by area, the competitive processor shall be one whose customary receiving point is located in the same area as that of the processor figuring his adjustment for raw material cost under this paragraph (d).

(e) *Allocation of costs.* In converting the cost of raw materials or any other cost factor into cost per dozen or other unit for any kind, flavor, brand and container type and size, the cost shall be allocated in the same proportion as the same cost was allocated to that item in 1942.

(f) *Items for which maximum prices cannot be figured under the foregoing rules of this section or section 8 (a).* If the processor cannot figure a maximum price, f. o. b. shipping point, under the foregoing rules of this section or under section 8 (a) for sales of any item to purchasers other than government procurement agencies, he shall figure his maximum price under section 6. If he cannot or is not permitted to figure his maximum price in that manner, he shall apply to the Office of Price Administration for authorization of a maximum price under section 8 (c).

SEC. 5. *Maximum prices for sales of apple butter by processors—*(a) *General explanation of pricing methods for apple butter.* To price an item of apple butter, the processor figures his maximum price for sales to purchasers other than government procurement agencies under the particular paragraph listed below which is applicable to the item being priced:

To price an item sold during the base period specified in § 1341.452 (a) (1) of Maximum Price Regulation 232¹ (October and November 1941) and for which the processor figured a maximum price under the general formula provisions of Maximum Price Regulation 498,² see paragraph (b), below.

To price an item sold during the base period specified in § 1341.452 (a) (1) of Maximum Price Regulation 232 (October

¹ 9 FR. 7833.

² 8 FR. 16503; 9 FR. 1507, 7833.

and November 1941) and for which the processor figured a maximum price under the general formula provisions of that regulation but did not figure a maximum price under Maximum Price Regulation 498, see paragraph (c), below.

To price an item for which the maximum price under Maximum Price Regulation 232 was determined by using a competitor's maximum price, or for which the maximum price under that regulation or Maximum Price Regulation 498 was determined by specific authorization or the alternative pricing method, and to price any item that cannot otherwise be priced, see paragraph (f), below.

The processor shall figure a maximum price for each factory at which he processes the item being priced. (However, he may then elect to combine prices as provided in section 8 (e), below).

(b) *General rule for pricing items of apple butter sold during the 1941 base period (October and November 1941) and for which maximum prices were figured under the general formula provisions of Maximum Price Regulation 498.* In general, this paragraph applies to the pricing of items of apple butter which the processor sold during the 1941 base period (October and November 1941) and for which he figured maximum prices under the general formula provisions of Maximum Price Regulation 498. It does not apply to items which were priced under Maximum Price Regulation 232 by using competitors' maximum prices (and then taking competitors' increases for fruit under Maximum Price Regulation 498), nor to items which were priced by individual authorization or the alternative pricing method under Maximum Price Regulation 232 or 498.

For sales of an item to purchasers other than government procurement agencies, the processor shall figure his maximum price per dozen or other unit, f. o. b. shipping point, as follows. He shall:

(1) *Start with the base price under Maximum Price Regulation 498.* The processor shall use as his starting point his base price under section 2 (a) of Maximum Price Regulation 498. Where his base price under section 2 (a) of Maximum Price Regulation 498 is a separate maximum price figured for sales to ultimate consumers (other than industrial, institutional and commercial users) under § 1341.452 (f) of Maximum Price Regulation 232, he shall use that price as his starting point.

(2) *Add permitted increase for fruit under Maximum Price Regulation 498.* Next, the processor shall add his permitted increase for fruit as required to be figured under section 2 (b) of Maximum Price Regulation 498.

(3) *Adjust for approved 1943 increases in wage rates.* Next, the processor shall adjust the resulting figure for the 1943 increase in wage rates if he incurred a wage rate increase approved by the War Labor Board or under the Fair Labor Standards Act and made effective after January 1, 1943, but before January 1, 1944. The adjustment is made by multiplying by the appropriate figure named in the following table for the area in which his factory is located.

Area	States	Multiply by—
1	Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia and West Virginia	1.015
2	All other States	1.01

(4) *Subtract 2%.* Next, the processor shall subtract from the resulting figure 2% of that figure.

(5) *Subtract the raw material cost under Maximum Price Regulation 498.* Next, the processor shall subtract the weighted average cost, delivered at the factory, for 1943 fresh apples and apple chops purchased or contracted for between September 1, 1943 and December 1, 1943 (after conversion to cents per unit of the finished product), as required to be figured under and subject to the limitations of section 2 (b) (1) of Maximum Price Regulation 498.

(6) *Add the 1945 raw material cost.* Next, the processor shall add to the resulting figure his 1945 weighted average cost delivered at the factory of 1945 fruit purchased or contracted for prior to the time of figuring the maximum price under this supplement, after conversion to cents per unit of the finished product.

(i) In figuring the weighted average cost delivered at the factory of 1945 fruit purchased or contracted for prior to the time of figuring the maximum price under this supplement, the processor shall exclude from the computations any amounts paid for fruit in excess of the following amounts (after conversion to cents per unit of the finished product):

(a) For apple chops, the maximum prices which the processor's supplier or suppliers were entitled to charge him under the supplement to Food Products Regulation No. 1, applicable at the time of purchase, in the respective sales by which the apple chops were acquired by the processor, plus the amount of any transportation charges actually incurred by the processor from the supplier's shipping point to the processor's factory.

(b) For fresh apples, a weighted average raw material price no higher than the appropriate price named below:

	Area	Price
Fresh apples...	Washington, Oregon, California, Idaho, and Montana	\$2.00 per cwt.
	All other States	\$3.00 per cwt.

The raw material prices named in the table above for fresh apples refer to designated prices delivered to the processor's customary receiving point. The actual transportation charges incurred from the processor's customary receiving point to his factory shall be added to the amount named at the customary receiving point. The location of the processor's customary receiving point is controlling in determining the applicable price in the table, and not the place where the raw material is grown or his factory located. However, if the processor purchases the raw material in an area other than that in which his customary receiving point is located, the applicable price in the table is the price named for the area in which the raw material is grown, and he shall add to this amount the actual transportation charges that would have been incurred in moving the goods from his customary receiving point to his factory.

"Delivered to the customary receiving point" means delivered to place where the processor received delivery of the raw material during 1944. If the processor had no customary receiving point during that year, "delivered to the customary receiving point" means delivered to the nearest place where processors of the same raw material, whose factories are located in the same area, received delivery during that year.

(ii) "1945 fruit" includes only fresh apples and apple chops processed from apples of the 1945 crop.

(7) *Adjust for approved increases in basic wage rate.* Finally, the processor shall multiply the resulting figure by the appropriate labor increase factor named in the table below if he has incurred an increase in basic wage rate approved by the War Labor Board, and if the increase became effective on or after January 1, 1944, and before August 18, 1945. An increase in basic wage rate will be considered to have occurred only if the single rate or the mid-point of the range of rates for unskilled female labor has been increased.

Area	States	Multiply by—
1	Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia	1.009
2	All other States	1.004

The resulting figure is the processor's maximum price per dozen containers or other unit, f. o. b. shipping point, for sales to purchasers other than government procurement agencies.

(c) *Rule for pricing items of apple butter in certain cases where the processor did not figure maximum prices under the general formula provisions of Maximum Price Regulation 498.* In general, this paragraph applies to the pricing of items of apple butter which the processor cannot price under paragraph (b), above, for the reason that he did not figure a maximum price under the general formula provisions of Maximum Price Regulation 498 but for which he figured a maximum price under the general formula provisions of Maximum Price Regulation 232. It does not apply to items which were priced under Maximum Price Regulation 232 by using competitors' maximum prices or by individual authorization or the alternative pricing method under Maximum Price Regulation 232 or 498.

For sales of an item to purchasers other than government procurement agencies, the processor shall figure his maximum price per dozen containers or other unit, f. o. b. shipping point, as follows. He shall:

(1) *Start with his maximum price under Maximum Price Regulation 232.* The processor shall use as his starting point his maximum price for the item, f. o. b. shipping point, as required to be figured under Maximum Price Regulation 232. Where the processor figured a separate maximum price for sales to ultimate consumers (other than industrial, institutional and commercial users) under § 1341.452 (f) of that regulation, his starting point shall be the maximum price so figured.

(2) *Subtract the raw material cost under Maximum Price Regulation 232.*

Next, the processor shall subtract the weighted average cost, delivered at the factory, of 1942 fruit purchased or contracted for between March 1, 1942 and October 1, 1942, as required to be figured under § 1341.452 (a) and (b) of Maximum Price Regulation 232 and subject to the limitations of those provisions.

(3) *Add the 1945 raw material cost.* Next, the processor shall add to the resulting figure his weighted average cost delivered at the factory of 1945 fruit purchased or contracted for prior to the time of figuring the maximum price under this supplement, after conversion to cents per unit of the finished product. This cost shall be figured in the same manner and subject to the same limitations as provided in paragraph (b) (6), above.

(4) *Adjust for approved 1943 increases in wage rates.* Next, the processor shall adjust the resulting figure for the 1943 increase in wage rates if he incurred a wage rate increase approved by the War Labor Board or under the Fair Labor Standards Act and made effective after January 1, 1943, but before January 1, 1944. The adjustment is made by multiplying by the appropriate figure named in the table in paragraph (b) (3), above.

(5) *Subtract 2%.* Next, the processor shall subtract from the resulting figure 2% of that figure.

(6) *Adjust for approved increases in basic wage rates.* Finally, the processor shall multiply the resulting figure by the appropriate labor increase factor named in the table in paragraph (b) (7), above, if he has incurred an increase in basic wage rate approved by the War Labor Board, and if the increase became effective on or after January 1, 1944, and before August 18, 1945. An increase in basic wage rate will be considered to have occurred only if the single rate or the midpoint of the range of rates for unskilled female labor has been increased.

The resulting figure is the processor's maximum price per dozen containers or other unit, f. o. b. shipping point, for sales to purchasers other than government procurement agencies.

(d) *Adjustment of raw material costs by processors who obtained permitted increases from comparable processors pursuant to § 1341.542 (f) of Maximum Price Regulation 232.* A processor who during the applicable 1941 base period sold the item being priced only to ultimate consumers (other than industrial, institutional and commercial users) and obtained his permitted increase pursuant to § 1341.452 (f) of Maximum Price Regulation 232 from the nearest comparable processor who sells to retailers or wholesalers, in figuring a maximum price under paragraph (b) or (c), above, shall adjust for raw material cost in the following manner.

(1) If he is figuring his maximum price under paragraph (b), instead of making the subtraction and addition ordinarily required by paragraphs (b) (5) and (6), he shall add the amount (converted to retail units on the basis of his own yields) arrived at by subtracting (i) the raw material cost under Maximum Price Regulation 498 that his most closely competitive processor who sells to retailers or wholesalers is required to subtract under

paragraph (b) (5), from (ii) the 1945 raw material cost that the same processor is required to add under paragraph (b) (6).

(2) If he is figuring his maximum price under paragraph (c), instead of making the subtraction and addition ordinarily required by paragraphs (c) (2) and (3) he shall add the amount (converted to retail units on the basis of his own yields) arrived at by subtracting (i) the raw material cost under Maximum Price Regulation 232 that his most closely competitive processor who sells to retailers or wholesalers is required to subtract under paragraph (c) (2), from (ii) the 1945 raw material cost that the same processor is required to add under paragraph (c) (3).

(3) Normally, the "most closely competitive processor" mentioned above will be the same processor from whom the processor obtained his permitted increase under § 1341.452 (f) of Maximum Price Regulation 232. In each case, however, the competitive processor shall be one who figured his maximum price under the same method (paragraph (b) or (c), above) that is being used by the processor. Furthermore, where the raw material prices for fresh apples named in paragraph (b) (6) (i) (b), and used by the processor in the product being priced, differ by area, the competitive processor shall be one whose customary receiving point is located in the same area as that of the processor figuring his adjustment for raw material cost under this paragraph (d).

(e) *Allocation of costs.* In converting the cost of fruit into cost per dozen or other unit for any brand and container type and size, the cost shall be allocated in the same proportion as the same cost was allocated to that brand and container type and size in 1942.

(f) *Items for which maximum prices cannot be figured under the foregoing rules of this section or section 8 (a).* If the processor cannot figure a maximum price, f. o. b. shipping point, under the foregoing rules of this section or under section 8 (a) for sales of any item to purchasers other than government procurement agencies, he shall figure his maximum price under section 6. If he cannot or is not permitted to figure his maximum price in that manner, he shall apply to the Office of Price Administration for authorization of a maximum price under section 8 (c).

Sec. 6. *Maximum prices for sales by processors of items which cannot be priced under section 4, 5 or 8 (a).* If the processor cannot otherwise determine his maximum price for an item under section 4, 5 or 8 (a), he shall figure his maximum price under the pricing method of this section. However, the processor who qualifies as a retailer under Maximum Price Regulation 422⁹ or 423¹⁰ shall not use the pricing method of this section, but he shall apply to the Office of Price Administration, Washington,

⁹ 10 F.R. 1505, 2024, 2297, 3814, 5370, 5577, 6235, 6514, 7251, 8015, 8656, 9272, 9263, 9430, 11303, 12264, 12265, 12810, 12992, 13073.

D. C., for authorization of a maximum price under section 8 (c).

(a) *Pricing method for sales to purchasers other than government procurement agencies.* Under this section, the processor shall figure his maximum price per dozen containers or other unit, f. o. b. shipping point, for sales to purchasers other than government procurement agencies as follows. (A maximum price shall be figured for each factory at which he processes the item being priced, although the processor may later elect to combine prices as provided in section 8 (e), below.) He shall:

(1) *Figure the "direct cost" of the item.* The processor shall figure his "direct cost" per dozen containers or other unit by adding together his current:

(i) Actual cost per unit of all ingredients (other than raw agricultural commodities) and of packaging materials, for which maximum prices have been established, figured at no more than the current maximum prices applying to the class of purchasers to which the processor belongs, or, if no maximum prices apply, figured at no more than their current market prices;

(ii) Actual cost per unit of all raw agricultural ingredients, for which maximum prices have been established, figured at no more than the current maximum prices applying to the class of purchasers to which he belongs;

(iii) Actual cost per unit of all other raw agricultural ingredients, for which no maximum prices have been established but for which the Department of Agriculture has recommended prices for payment to growers, figured at no more than those prices;

(iv) Actual cost per unit of all other raw agricultural ingredients, figured at no more than their current market prices;

(v) Direct labor cost per unit, figured at no more than lawful current rates; and

(vi) Transportation charges per unit by the usual mode of transportation from his customary supplier to his factory with respect to any cost used in (i), above, and from his customary receiving point to his factory with respect to any cost used in (ii), (iii) and (iv), above, if that cost is not a delivered cost and if these charges are customarily incurred.

(2) *Multiply by 1.35.* Finally the processor shall multiply his "direct cost" per dozen containers or other unit of the item by 1.35.

The resulting figure is the processor's maximum price per dozen containers or other unit, f. o. b. shipping point, for sales of the item to purchasers other than procurement agencies.

(b) *Pricing method for sales to government procurement agencies.* The processor's maximum price for sales of the item to government procurement agencies shall be determined as provided in section 8 (b).

(c) *Meaning of "current."* As used in this section, "current" means at the time of figuring the maximum price.

(d) *Direct labor cost.* In deciding whether items of labor cost are to be treated as direct cost in figuring the price or are to be treated as overhead,

the processor shall follow his customary practice. Thus, if a processor customarily has treated cleaning labor as an item of overhead, he shall continue to treat it in this way when figuring the maximum price.

(e) *Reporting prices.* Before making any sales or deliveries to any purchasers of any item for which he figures his maximum price under this section, the processor shall file with the Office of Price Administration, Washington, D. C., a report in duplicate and signed by him, showing:

(1) A description in detail of the item being priced, including its grade and brand name (if any) to be used, a statement of the facts that make it different from the most similar item for which he has determined a maximum price, identifying the similar item and stating its maximum price, and a statement giving the reasons why he cannot figure a maximum price under the other pricing methods of this supplement. (The statement of reasons should indicate whether sales of the item have been made previously and if so how its maximum price was determined, and the reasons why the seller cannot price the item under section 4, 5 or 8 (a).)

(2) The weighted average raw material price paid per ton or other unit for any 1945 fresh fruit used in the item being priced, delivered to the processor's customary receiving point.

(3) The current case (unit) yield per ton or other unit of 1945 fruit used in the item being priced.

(4) The current total direct cost per dozen containers or other unit of the item being priced, also showing separately cost of ingredients, cost of packaging materials, direct labor cost and incoming transportation charges incurred by the processor.

(5) The current total cost per dozen containers or other unit of the item being priced (i. e. the total of direct cost, indirect labor, depreciation, factory rental, insurance, machinery repairs, and other cost factors generally pertaining to processing operations; and general administrative and selling expenses).

(6) The maximum price per dozen containers or other unit of the item being priced, f. o. b. shipping point, for sales to purchasers other than government procurement agencies, as figured under this section.

(7) The volume of the item that he has produced since January 1, 1945.

The processor shall also furnish any additional information which the Office of Price Administration may require.

(f) *Approval, disapproval or revision of reported maximum price.* The Price Administrator may at any time approve, disapprove or revise any maximum price figured under this section so as to bring it into line with maximum prices for comparable commodities and sellers.

SEC. 7. Maximum prices for sales by wagon wholesalers and distributors other than wholesalers and retailers—(a) Wagon wholesalers—(1) General pricing method. The maximum price which a wagon wholesaler may charge for an item of fruit preserves, jams or jellies

or apple butter shall be determined as follows:

If his supplier's maximum price under this supplement is greater than the supplier's maximum price under the maximum price regulation previously applicable to the supplier, the wagon wholesaler shall add the difference to the maximum price he had under Maximum Price Regulation 473 or 498 or, in the case of pineapple preserves, jams or jellies, under Maximum Price Regulation 255.¹⁴ If his supplier's maximum price under this supplement is less than the supplier's maximum price under the maximum price regulation previously applicable to the supplier, the wagon wholesaler shall subtract the difference from the maximum price he had under Maximum Price Regulation 473 or 498 or, in the case of pineapple preserves, jams or jellies, under Maximum Price Regulation 255. However, in no event may the wagon wholesaler's maximum price be greater than 124% of his net delivered cost.

If the wagon wholesaler handled the product (fruit preserves, jams and jellies, or apple butter) before November 28, 1945, but did not handle the particular item being priced before that date, his maximum price for the new item shall be his net delivered cost multiplied by a markup factor. This markup factor shall be figured by dividing his maximum price (as figured under this paragraph (a)) for the most closely comparable item of the product already handled by him by the net delivered cost to him of that item.

(2) *Meaning of "wagon wholesaler."* A "wagon wholesaler" is one who purchases the item being priced and distributes it to retailers or to commercial, industrial or institutional users from an inventory stocked in trucks or other conveyances which are under the supervision of driver salesmen who make delivery at the time and place of sale. Such wholesaler is a wagon wholesaler only for sales of items customarily sold in this manner.

(3) *Meaning of "net delivered cost."* In this section, "net delivered cost" means the amount the wagon wholesaler pays for the item delivered to his customary receiving point (but not in excess of the processor's maximum price for it, f. o. b. shipping point, plus actual charges incurred for transportation to the wagon wholesaler's customary receiving point), less all discounts allowed him except the discount for prompt payment. No expense of local trucking or unloading shall be included. Net delivered cost shall be figured on the basis of the wagon wholesaler's first delivery made, of any purchase of the item, on or after the effective date of this supplement or of an amendment changing the processor's maximum price.

(4) *Items that cannot be priced under subparagraph (1).* If the wagon wholesaler cannot figure his maximum price under the foregoing pricing methods, his maximum price shall be:

(i) The maximum price of his supplier, f. o. b. shipping point, plus incoming freight paid by the wagon wholesaler, if

he purchased the particular goods being priced from a supplier other than a wholesaler or retailer who prices under Maximum Price Regulation 421,¹⁵ 422 or 423.

(ii) The "net cost" of his supplier under Maximum Price Regulation 421, 422 or 423, plus incoming freight paid by the wagon wholesaler, if he purchased the particular goods being priced from a wholesaler or retailer who prices under one of those regulations.

(b) *Distributors other than wholesalers and retailers.* The maximum price, f. o. b. shipping point, of a distributor who is not a wholesaler or retailer shall be:

(1) The maximum price of his supplier, f. o. b. shipping point, plus incoming freight paid by the distributor, if he purchased the particular goods being priced from a supplier other than a wholesaler or retailer who prices under Maximum Price Regulation 421, 422 or 423.

(2) The "net cost" of his supplier under Maximum Price Regulation 421, 422 or 423, plus incoming freight paid by the distributor, if he purchased the particular goods being priced from a wholesaler or retailer who prices under one of those regulations.

SEC. 8. Provisions of Article II of Food Products Regulation No. 1 applicable to this supplement. The following provisions of Food Products Regulation No. 1 are applicable to this supplement:

(a) Maximum prices for products in new container types or sizes (sec. 2.2 of FPR 1).

SEC. 10. *Individual adjustment of processors' maximum prices.*—(a) *For sales to purchasers other than government procurement agencies.*—(1) *When adjustments may be made.* Either on his own motion or upon application in accordance with Revised Procedural Regulation No. 1,² the Price Administrator may adjust a processor's maximum price for any item figured under section 4 or 5 of this supplement for sales to purchasers other than government procurement agencies, where it appears that:

(i) The maximum price is below the median price at which sales of the item (regardless of brand) may be made to purchasers other than government procurement agencies by processors located in the general processing area;

(ii) The processor would be entitled to a price increase under the standards set forth in subparagraph (2), below; and

(iii) In the judgment of the Price Administrator, an increase in the processor's maximum price would be in furtherance of the purposes of the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended and Executive Orders Nos. 9250, 9328 and 9599.

(2) *Amount of adjustment.* The maximum price, as adjusted under this section, shall in no event be higher than the median price at which sales of the item (regardless of brand) may be made to purchasers other than government procurement agencies by processors located in the general processing area. Subject to this limitation and the limitation of

subparagraph (1) (iii), above, the adjusted maximum price shall not exceed the following amount:

(i) Processing costs for the item if the processor's percentage of net operating profits (before income and excess profits taxes) to net sales of fruit preserves, jams and jellies and apple butter, during the most recent fiscal year, was 6.5 percent or higher; or

(ii) Total costs for the item if the processor's percentage of net operating profits (before income and excess profits taxes) to net sales of fruit preserves, jams and jellies and apple butter, during the most recent fiscal year, was less than 6.5 percent but no lower than 4 percent; or

(iii) Total costs for the item plus a profit equal to 4 percent of the adjusted maximum price, if the processor's percentage of net operating profits (before income and excess profits taxes) to net sales of fruit preserves, jams and jellies and apple butter, during the most recent fiscal year, was lower than 4 percent.

(b) *For sales to government procurement agencies.*—(1) *When adjustments may be made.* Either on his own motion or upon application in accordance with Revised Procedural Regulation No. 1, the Price Administrator may adjust a processor's maximum price for any item determined under section 8 (h) of this supplement for sales to government procurement agencies when the processor has entered into or proposes to enter into a government contract or subcontract thereunder, where it appears that:

(i) The maximum price is below the median price at which sales of the item (regardless of brand) may be made to government procurement agencies by processors located in the general processing area;

(ii) The processor would be entitled to a price increase under the standards set forth in subparagraph (2), below; and

(iii) In the judgment of the Price Administrator, an increase in the processor's maximum price would be in furtherance of the purposes of the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250, 9328 and 9599.

(2) *Amount of adjustment.* The maximum price, as adjusted under this section, shall in no event be higher than the median price at which sales of the item (regardless of brand) may be made to government procurement agencies by processors located in the general processing area. Subject to this limitation and the limitation of subparagraph (1), (iii), above, the adjusted maximum price shall not exceed the following amount:

(i) Processing costs for the item if the processor's percentage of net operating profits (before income and excess profits taxes) to net sales of fruit preserves, jams and jellies and apple butter, during the most recent fiscal year, was 6.5 percent or higher; or

(ii) Total costs for the item if the processor's percentage of net operating profits (before income and excess profits taxes) to net sales of fruit preserves, jams and jellies and apple butter, during the most recent fiscal year, was less than

6.5 percent but not lower than 4 percent; or

(iii) Total costs for the item plus a profit equal to 4 percent of the adjusted maximum price, if the processor's percentage of net operating profits (before income and excess profits taxes) to net sales of fruit preserves, jams and jellies and apple butter, during the most recent fiscal year, was lower than 4 percent.

(3) *Contracts pending authorization of prices.* While an application for authorization of a maximum price under section 8 (c) is pending, the processor may file written notice with the Office of Price Administration, Washington, D. C., of his intention to seek an adjustment under this paragraph (b) if the maximum price subsequently authorized is less than the price for sales to government procurement agencies proposed by him in his application and named in the notice. When such a notice is filed, contracts, bids, payments, and deliveries may be made on the basis of the price named in the notice, provided that the contract in each case stipulates that final settlement (including any necessary refunds) shall be made consistently with the maximum price as finally established. If the maximum price authorized is less than the amount to which it may be adjusted under this paragraph (b), and the processor files his application for adjustment within 30 days after the maximum price is authorized, any adjustment granted shall be effective from the date of the filing of the notice of intention.

(4) *Contracts pending disposition of application for adjustment.* Upon the filing of an application for adjustment under this paragraph (b) or within 30 days prior thereto, and until final disposition of the application, contracts may be entered into or proposed and bids submitted at the price or prices requested in the application, and deliveries may be made under such contracts, except that the processor may not receive and the buyer may not pay the amount by which the price exceeds the maximum price unless and until an order granting a higher price has been issued. The processor shall include in any sale, contract to sell, or offer to sell at the price requested in an application the following:

(i) His maximum price for sales of the item to government procurement agencies.

(ii) A statement that the quoted price is subject to approval by the Office of Price Administration.

(iii) A statement that an appropriate application has been filed, or will be filed within 30 days, with the Office of Price Administration.

Any government agency may appear as an interested party in the case of any such application.

(c) *Form and place of filing application.* Applications for adjustment shall be filed with the Office of Price Administration, Washington, D. C., in duplicate on Office of Price Administration Form No. 6039-2526, and shall contain the information specified in that form. Copies may be obtained from any field office of the Office of Price Administration or

from the Wholesale-Retail and Fruit and Vegetable Branch, Food Price Division, Office of Price Administration, Washington, D. C. The Office of Price Administration may request the processor to file any additional cost data based upon operating experience.

(d) *Determination of limitations on adjustment in certain cases.* If the particular item (regardless of brand) is not the "basic item" of that flavor of fruit preserves, jams or jellies, or of apple butter, for the purpose of making adjustments the Price Administrator may determine the applicable median price at which sales of the item (regardless of brand) may be made to the appropriate class of purchasers by processors located in the general processing area, by customary differential from the reported maximum prices for the basic item of the same product sold by processors in the same or nearest general processing area.

"Basic item" of any flavor of fruit preserves, jams or jellies, or of apple butter, means the item (regardless of brand) for which the greatest number of maximum prices have been reported.

(e) *Definitions.* When used in this section:

(1) "Net sales" means total sales less return sales of finished product.

(2) "Processing costs for the item" means current:

(i) Actual cost per unit of all ingredients (other than raw agricultural commodities) and of packaging materials, for which maximum prices have been established, figured at no more than the current maximum prices applying to the class of purchasers to which the processor belongs, or, if no maximum prices have been established, figured at no more than their current market prices;

(ii) Actual cost per unit of all raw agricultural ingredients, figured at no more than applicable prices which the processor is permitted to use in figuring a maximum price under section 4 or 5;

(iii) Direct labor cost per unit, figured at no more than lawful current rates;

(iv) Transportation costs per unit by the usual mode of transportation, from the processor's customary supplier to his factory with respect to any cost used in (i), above, and from his customary receiving point to his factory with respect to any cost used in (ii), above, if that cost is not a delivered cost and if these charges are customarily incurred; and

(v) Other costs of processing per unit, such as indirect labor (figured at no more than lawful current rates), depreciation, factory rental, insurance, machinery repairs, and other cost factors generally pertaining to processing operations, but not including general administrative and selling expense.

(3) "Total costs for the item" means processing costs plus current general administrative and selling expenses per unit.

(4) "Median price" means the middle price of a series of prices arranged in order of size or, if the series consists of an even number of prices, the simple arithmetic average of the two middle prices.

(5) "Government contract" means any contract with the United States or any agency thereof or with the Government or any agency thereof of any country whose defense the President deems vital to the defense of the United States under the terms of the act of March 11, 1941, entitled "An Act to Promote the Defense of the United States".

(6) "Subcontract" means any purchase order or agreement to make or furnish any commodity needed for the performance of another Government contract or subcontract thereunder.

(f) *Effect of prior adjustments.* In determining adjustments under this section, changes in prices resulting from the granting of prior adjustments to other processors under this section shall, so far as practicable, be disregarded.

(g) *Relationship with Revised Supplementary Order No. 9.* No application for adjustment filed on or after November 28, 1945, under Revised Supplementary Order No. 9 with respect to maximum prices of processors for sales to government procurement agencies of commodities covered by this supplement will be granted.

"9 FR. 1534.

For the reasons set forth in the statement of considerations and by virtue of the authority vested in me by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250, 9328, 9599 and 9620, I find that the issuance of this supplement insofar as it establishes maximum prices based on the raw material prices, (other than for apples) referred to in the statement of considerations that are above the minimum amounts required by law, is necessary to aid in the effective prosecution of the war and to correct gross inequities.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[MPR 149, Amdt. 22]

MECHANICAL RUBBER GOODS

A statement of the considerations involved in the issuance of this amend-

ment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 149 is amended in the following respects:

A new section designated § 1315.30c is added to read as follows:

§ 1315.30c *Industry-wide adjustments for reconversion products.* Special pricing provisions applicable to particular products may be established by orders issued under this section when, with respect to the product, the Administrator finds:

(a) That in 1944 its production was approximately one-half or less of its production in its last representative period of peacetime production;

(b) That this reduction in dollar volume resulted from (1) governmental restrictions on the manufacture of products or on the use of materials, facilities, or manpower, or (2) the use of facilities for the production of war goods, or (3) other direct needs of the war effort; and

(c) That because of change in government restrictions or in the needs of the war program, manufacturers of the product generally are able to begin or to increase substantially the production of the product line.

If in the judgment of the Administrator, the purposes of this section will be effectuated, as to a particular product, without any special pricing provisions, an order under this section will not be issued with respect to that product even though the above findings could be made as to it.

Orders under this section, will generally authorize industry-wide increases in the established maximum prices of manufacturers in those industries based upon surveys conducted by the Price Administrator, either upon the request of the particular industry or upon his own motion. Those orders will establish adjusted maximum prices or methods of determining such prices by the use of price increase factors. Where, however, in the judgment of the Price Administrator, the use of an industry-wide factor will, by reason of the diversity in the products made by the member firms, the wide variation in cost experience among them, or other reasons be an inequitable and inappropriate means of establishing reconversion prices, he may provide for the calculation and application of individual price increase factors.

Broadly stated, the new maximum prices will represent costs experienced during the last period of normal production adjusted for subsequent lawful changes in the level of materials prices and in basic wage rate schedules of factory workers, plus the industry's average peacetime profit margin over cost. Changes in materials prices may be measured by materials cost increase factors, determined by the Administrator, in those cases where such action may be necessary to eliminate temporary or artificial influences. In the case of an industry for which the Administrator has decided that price increase factors should be determined and applied for each firm, the profit element in each in-

crease factor will be the firm's own base period profit margin or one-half the industry's average peacetime margin, whichever is the higher.

Orders issued under this section may also modify or supersede the provisions of Maximum Price Regulation 149 with respect to the establishment of maximum prices, if, on the basis of the particular characteristics of the industry involved, the Administrator finds that another method of price determination will effectuate the purposes of this regulation better than the general pricing provisions of the regulation. In addition, those orders may establish new maximum prices or a method of determining new maximum prices for sales by persons other than manufacturers which will supersede maximum prices fixed by other regulations for such sales and which will be consistent with the standards applied by the Office of Price Administration for the reasonable absorption of necessary cost increases.

Orders issued under this section will not ordinarily reduce higher maximum prices which manufacturers have previously established in accordance with the applicable provisions.

A manufacturer of a product covered by an order issued under this section may not obtain an adjustment of his maximum prices under any adjustment provision other than Supplementary Orders Nos. 118 and 119, unless the adjustment provision itself or the order issued under this section covering his product expressly provides otherwise.

Small volume manufacturers may use as their new maximum prices those which they calculate under Supplementary Order No. 118, and general orders issued pursuant thereto, if the maximum prices so calculated are higher than maximum prices set under orders issued under this section. Any other manufacturer may apply for an individual adjustment under Supplementary Order No. 119, if, after the adjustment authorized for his industry by an order under this section, his maximum price still continues eligible for adjustment in accordance with the provisions of that supplementary order.

Orders issued under this section may require a manufacturer to arrange the production and distribution of his products so that they will be representative of his production and distribution in a specified past period for goods in a particular category. The Administrator may also require authorized price increases to be applied among articles or price lines in a manner consistent with the need, under the stabilization program, to maintain the production of lower-priced articles.

This amendment shall become effective December 1, 1945.

Issued this 26th day of November 1945.

CHESTER BOWLES,
Administrator.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 422, Amdt. C2]

CEILING PRICES OF CERTAIN FOODS SOLD AT RETAIL IN GROUP 3 AND GROUP 4 STORES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 20 (j) is amended to read as follows:

(j) *Poultry and turkey bought live, dressed or drawn and sold in parts—*(1) *"Cut-up poultry and cut-up turkey."* If you buy poultry or turkey live, dressed or drawn, and you sell such poultry or turkey in parts which are "cut-up poultry" or "cut-up turkey" as defined in Second Revised Maximum Price Regulation No. 269, you shall figure your ceiling price for each item of such "cut-up poultry" or "cut-up turkey" as though you had bought it "cut-up", using as your "net cost" per pound the lowest ceiling price fixed by Second Revised Maximum Price Regulation No. 269, which would apply to sales to you by your customary type of supplier delivered to your usual receiving point, of such "cut-up" poultry or turkey items during the week in which you are figuring your ceiling price for the item. To that "net cost," you shall apply the mark-up applicable to that kind of poultry or turkey bought cut-up and sold cut-up. The resulting figure will be your ceiling price per pound for that item of "cut-up poultry" or "cut-up turkey."

(2) *Poultry and turkey other than "cut-up poultry" or "cut-up turkey."* If you buy poultry or turkey live, dressed or drawn and you sell such poultry or turkey in parts (other than split, or in quarters) which are not "cut-up poultry" or "cut-up turkey" as defined in Second Revised Maximum Price Regulation No. 269, you shall figure a separate ceiling price for each of such parts. You must use as your "net cost" per pound for each of such parts the lowest ceiling price per pound fixed by Second Revised Maximum Price Regulation No. 269 which would apply to sales to you by your customary type of supplier delivered to your usual receiving point, of such part, during the week in which you are figuring your ceiling price for the item. To that "net cost," you shall apply the mark-up applicable to that kind of poultry or turkey bought cut-up and sold cut-up. The resulting figure will be your ceiling price per pound for such parts.

This amendment shall become effective December 6, 1945.

Issued this 26th day of November 1945.

Maximum Price Regulation 177 is amended in the following respects:

1. Section 1389.104 is amended by adding a new paragraph (c) to read as follows:

(c) *Special provision for pricing of certain garments made of 18 oz. wool serge cloth, or 32 oz. overcoating cloth.* This paragraph establishes the maximum price of a garment made of 18 oz. wool serge cloth (either O. D. or re-dyed from O. D.) or 32 oz. overcoating cloth, (either O. D. or re-dyed from O. D.), if the maximum price calculated under subparagraphs (a) (3) or (b) (2) exceeds the seller's "highest price line limit" for garments of the same classification, that is, the highest price determined under subparagraphs (a) (1), (a) (2) or (b) (1).

(1) Find the fabric cost of the garment being priced.

(2) Subtract from this figure the weighted average fabric cost² of all garments delivered since May 1, 1945 at the seller's highest price line limit, which are the same as or similar to the garment being priced except for the difference in fabrics. (If no deliveries of such garments were made since May 1, 1945, use period since May 1, 1944.)

(3) Add this amount to the highest price line limit used in (2).

(4) Result is the maximum price of the garment being priced.

Maximum Price Regulation 570 is amended in the following respects:

1. Section 3 (a) is amended to add the following note at the end of the second paragraph thereof:

5. Section 21 (a) is amended to add the following undesignated paragraph at the end thereof:

However, if you manufacture any of your materials and therefore have no invoice covering the purchase of such materials, you must keep a record showing for each such material (1) name and construction of material; (2) number of maximum price regulation or order under which your maximum price for each such material would be determined; (3) net maximum price per yard for each such material, in the greige or unfinished state, (yarn-dyed woollens are considered unfinished woollens) in effect on the date of delivery to the finishing plant. If you keep a purchase record as described above, the information required by this paragraph shall be entered in this purchase record. If you do not keep a purchase record, you must keep the information required by this paragraph in a separate record. Chapter XVIII—Office of Stabilization
Administrator, Office of War Mobiliza-
tion and Reconversion

[Directive 87]

PART 4003—SUPPORT PRICES; SUBSIDIES
IMPORTS OF GREEN COFFEE

The Office of Price Administration, the State Department, and the Department of Agriculture have submitted information to me with respect to the critical need for encouraging imports of green coffee. After careful consideration and after consultation with representatives of the interested agencies, I find that in order to obtain adequate supplies of green coffee without increasing coffee prices to the consumer or resuming coffee rationing, it is necessary to provide a temporary program for subsidizing imports of green coffee as an emergency measure to avoid a critical shortage of coffee for domestic civilian consumption during the coming winter.

Accordingly, pursuant to the authority vested in me by the Stabilization Act of 1942, as amended, and by Executive Order 9250 of October 3, 1942 (7 F.R. 7871), Executive Order 9328 of April 8, 1943 (8 F.R. 4681), Executive Order 9599 of August 18, 1945 (10 F.R. 10155), Executive Order 9620 of September 20, 1945 (10 F.R. 12033), the directive of October 13, 1945, issued by the Director of War Mobilization and Reconversion (10 F.R. 12812), and Executive Order 9651 (10 F.R. 13487), *It is hereby ordered:*

1. The Reconstruction Finance Corporation is authorized and directed to establish and carry out the following subsidy program with respect to imports of green coffee:

(a) The amount of the subsidy shall be 3 cents per pound (net shipping weight basis) of green coffee imported in accordance with the eligibility provisions of this directive.

(b) In no event shall any subsidy payment be made on any green coffee imported in excess of 6,000,000 bags of 60 kilograms each.

(c) The Secretary of Agriculture shall establish a quota for each importer, based upon the aggregate quantity of 6,000,000 bags, proportionate to the importer's allocation as established under War Food Order Number 63, and shall certify these quotas to the Reconstruction Finance Corporation. No subsidy payment shall be made to any importer with respect to coffee imported in excess of the quota assigned to him.

(d) Subsidy payments shall be made to importers who show, with respect to the coffee on which the subsidy is claimed, that:

(i) The coffee has been imported in accordance with the importer's quota as established pursuant to paragraph 1 (c) of this directive;

(ii) The importer has paid no more than the maximum price at which green coffee may be imported under the provisions of Revised Price Schedule No. 50, issued by the Office of Price Administration, as amended in accordance with the provisions of section 2 of this directive;

(iii) The coffee was purchased and loaded on board an exporting carrier after November 18, 1945, and prior to April 1, 1946; or that it was loaded on board an exporting carrier after November 18, 1945, and before November 24, 1945, pursuant to a booking of shipping space made after November 17, 1945;

(iv) The coffee has been landed in the United States not later than May 31, 1946;

(v) The coffee has been imported into the United States for domestic civilian consumption; and

(vi) The importer agrees to the conditions set forth in paragraph 1 (e) of this directive.

(e) The Reconstruction Finance Corporation shall require that each importer, as a condition of obtaining any subsidy payments under this program, agree:

(i) That he will not hold any inventory of green coffee in the United States in excess of a reasonable amount as defined by the Stabilization Administrator or an agency designated by him;

(ii) That the coffee on which the subsidy is claimed will be sold by him only for domestic civilian consumption in the United States.

(f) This directive may be amended to provide for further restrictions on or prohibition of the exportation of coffee in any form, in order to effectuate the purposes for which this program is established.

(g) If the Price Administrator determines that any claimant of subsidy payments under this program has willfully violated any provision of Revised Price Schedule No. 50, he shall certify that fact to the Reconstruction Finance Corporation and the Reconstruction Finance Corporation shall withhold all subsidy payments to which the claimant would otherwise be entitled under this program.

2. The Price Administrator is authorized and directed to amend Revised Price Schedule No. 50 so as to increase by 3 cents per pound the maximum price at which green coffee may be imported; but this increase in maximum prices shall be applicable only to coffee imported in accordance with the conditions prescribed in this directive with respect to eligibility for subsidy payments.

3. The Secretary of Agriculture is authorized and directed to suspend War Food Order No. 63 with respect to coffee until April 1, 1946.

4. Until April 1, 1946, any importer purchasing green coffee for importation shall, within 5 days of the date of purchase, report the terms of purchase to the Department of Agriculture on a form to be supplied by that Department.

ST. MARYS FALLS CANAL AND LOCKS, MICH.

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1), the regulations prescribed March 9, 1921, to govern the use, administration, and navigation of the St. Marys Falls Canal and Locks, Michigan, are hereby amended to read as follows:

§ 207.440 *St. Marys Falls Canal and Locks, Mich.; use, administration, and navigation.* (a) The use, administration, and navigation of the canal and canal grounds shall be under the direction of the District Engineer, Engineer Department at Large, in charge of the locality, and his authorized agents. The term "canal" shall include all of the natural waters of the St. Marys River on the United States side of the International Boundary and all of the canalized waterway and the locks therein between the western or upstream limit, which is a north and south line tangent to the west end of the Northwest Pier, and the eastern or downstream limit, which is a north and south line tangent to the northeast corner of the old Fort Brady Reservation, the distance between limits being 1.9 miles. The term "canal grounds" shall include all of the United States part and other lands, piers, buildings, water level regulation works, hydroelectric power plant, and other appurtenances acquired or constructed for the channel improvement and use of the waterway.

(b) Masters of all registered vessels approaching and desiring to use the locks shall, upon arriving at Sailors Encampment, Little Rapids Cut, and Brush Point, report the name of the vessel and its draft to the Coast Guard Lookout Stations at those points.

(c) Upon approaching the canal, vessels shall request lock dispatch by blowing two long and two short blasts of the whistle. Upon receipt of directions by the lock dispatching signal system, vessels shall acknowledge the assignment by one long and one short blast.

(d) When in the locks, vessels shall not blow whistle signal for tugs, supply vessels, or persons unless authorized to do so by the District Engineer or his authorized agents.

(e) On all vessels of 400 gross tons or over navigating the canal under their own power, there shall be on duty the following ship's officers: In the pilot house, on the bridge, or in the immediate vicinity thereof, the master, one mate, and one wheelman; in the engine room, the chief engineer, one assistant engineer, and one oiler or other member of the crew familiar with the operation of the engine. During transit of the locks, all vessels of 400 gross tons or over equipped with power operated mooring deck winches shall have, in addition to the winch operators, mates or signalmen at the forward and after ends of the vessel to direct operations from points providing maximum vision of both the winch operators and canal linesmen.

(f) Within the limits of the canal, vessels approaching the locks shall not navigate at a speed greater than 2½ miles per hour, and vessels leaving the locks shall not navigate at a speed greater than 6 miles per hour. Tugs assisting vessels in passing, the locks may be authorized by the District Engineer or his authorized agents to navigate at a higher speed when considered necessary to expedite canal operations.

(n) The releasing of vessel steam, water, or waste from side discharge openings upon the piers or lock walls, the cleaning of boiler flues in the locks or canal, or the emission of dense smoke from the stack of any vessel while passing through the locks, is forbidden.

(o) No person shall enter or navigate the canal with a boat or other craft which, when entering or while navigating the canal, shall have an iron or irons projecting from it or a rough surface or surfaces on it which would be liable to damage the lock walls or canal piers.

(p) No person shall cause or permit any vessel or boat of which he is in charge or on which he is employed to in any way obstruct the canal or delay in passing through it, except upon prior authority of the District Engineer or his authorized agents.

(q) No person shall enter upon any part of the canal grounds except as permitted, either generally or in specific instances, by the District Engineer or his authorized agents. No person shall willfully or carelessly injure, tamper with, or damage the canal or any of the Government buildings, works or structures, trees or shrubbery, or other public property pertaining to the canal or canal grounds.

(r) All barges or other vessels navigating within the canal and not operated under their own power, whether approaching or leaving the locks, are required to be assisted by one or more tugs of sufficient power to insure full control at all times.

(s) Smoking and open flames are prohibited on the canal grounds within 50 feet of any tanker transiting the canal and locks, and on board the tanker transiting the locks except in such places as may be designated in the ship's regulations.

(t) All oil tankers, barges, and other vessels which are used for transporting inflammable liquids, either with or without cargo, shall, if not equipped with fixed timber fenders, be prevented from contacting any unfendered pier, lock wall, or other structure by an adequate number of suitable fenders of timber, rubber, or rope placed between the vessel and such unfendered structure.

(u) Masters or other persons refusing to comply with these regulations or any orders given in pursuance thereof, or using profane, indecent, or abusive language, may, in the discretion of the District Engineer or his authorized agents, be denied the privileges of the locks or canal grounds. (See § 2.1001 (1)) (57 Stat. 554; 38 U.S.C. 730)

No change in (b) to (f), inclusive.

§ 2.1003 *Jurisdiction of adjudication division.* Within the jurisdiction of field adjudication activities, the adjudication division in each regional office or center, under the direction of an adjudication officer, will be responsible for the preparation and adjudication of claims for disability and death compensation or pension and burial allowance and determining, upon proper request, service-connection for the condition or conditions for which out-patient treatment only is requested; for determining whether the character of discharge is a bar to benefits, including benefits under Titles II, III and V of Public No. 346, 78th Congress, and hospital treatment, domiciliary care, and out-patient treatment for service-connected disabilities under Public No. 2, 73d Congress, as amended, in doubtful cases; for determining whether disabilities are service-connected and pensionable for purposes of vocational rehabilitation, education or training; for determining whether the injury or disability for which discharged, in those instances where the veteran served less than ninety days, was incurred or aggravated in line of duty for the purposes of Titles II, III and V, Public No. 346, 78th Congress; for awarding increased pension payable because of vocational rehabilitation and for the awarding of subsistence allowances payable during a period of education or training. (58 Stat. 284; 38 U.S.C. 693)

§ 2.1004 *Jurisdiction of authorization unit.* The authorization unit will have jurisdiction over the determination of basic eligibility for monetary benefits in claims under the jurisdiction of the field office; the development of claims in conformity with established Veterans' Administration policy; the adjudication of all claims upon completion of rating action; the maintenance of such follow-up procedure as may be required (this does not apply to follow-up of requested physical examinations); the development and certification of appeals; the certification, upon proper request, of data for consideration in determining eligibility for domiciliary care, or hospital or out-patient treatment; the determination whether the character of discharge is a bar to benefits including benefits under Titles II, III and V of Public No. 346, 78th Congress, and hospital treatment, domiciliary care, and out-patient treatment for service-connected disabilities, under Public No. 2, 73d Congress, as amended, in doubtful cases; the awarding of increased pension payable because of vocational rehabilitation and the awarding of subsistence allowance payable during a period of education or training; the furnishing of technical information,

through correspondence or otherwise, to veterans or their representatives in explanation of action taken upon individual claims, and the carrying out of such duties in relation to the foregoing and adjudication matters, general or otherwise, as may be properly assigned by central office. (58 Stat. 284; 38 U.S.C. 693)

§ 2.1005 *Jurisdiction of rating board.* (a) The rating boards are vested with authority to determine questions of service connection of disability flowing from diseases and injuries, (including such determinations for purposes of Public No. 346, 78th Congress) in cases in which the jurisdiction is temporarily or permanently vested in the field office concerned; to determine the true prewar occupations of claimants; to determine the necessity for, type of, sufficiency of, and appropriate date of examinations and reexaminations, including hospitalization for observation, for rating purposes; to determine and to evaluate the disability resulting from each and from all such diseases and injuries and to determine whether any such disease or injury is due to the willful misconduct or misconduct of the veteran; to determine the competency or incompetency of claimants in proper cases; to determine whether the veteran was insane at time of commission of offense resulting in discharge otherwise precluding entitlement to benefits; to determine whether children of veterans are insane, idiotic or otherwise helpless by reason of mental or physical condition; to determine entitlement under section 31, Public No. 141, 73d Congress, as amended by section 12, Public No. 866, 76th Congress, and under § 35.017 (d), as amended.

No change in (b) or (c).

(d) In the event of a dissenting opinion by a rating specialist or a member of the central disability board, no payment will be made based upon the decision, until it has been authoritatively determined whether an appeal will be taken. If appeal from any decision is taken by the adjudication officer, an assistant adjudication officer, the manager, the chief, claims division, or the assistant chief, claims division, in cases adjudicated by the central disability board, no change in payments, based on the decision appealed from, will be made until a decision is rendered by the board of veterans appeals and the case file is returned to the appropriate activity.

(e) If it is decided that an appeal is to be taken by the adjudication officer, an assistant adjudication officer, the manager, the chief, claims division, or the assistant chief, claims division, in central office cases, the claimant or his representative will be promptly informed concerning the question at issue and concerning his right of appearance or representation before the rating board or the board of veterans appeals. As provided in adjudication procedure the formal hearing in the field office will be in lieu of a formal hearing before the board of veterans appeals, except in the unusual case when a special appearance by the veteran or his representative before the board of veterans appeals may

be considered necessary. The hearing will not be accepted to serve as a basis for reversal of the majority decision, but such action as may be indicated will be taken where new and material evidence is submitted or where the further development of evidence would appear to be advisable on information submitted by or in behalf of the claimant. A transcribed record of the hearing will be filed. If, upon being informed of the administrative appeal, the claimant or his representative elects to present additional evidence or argument in support of the administrative appeal, such election will be deemed to be an appeal, and the two appeals will be merged and considered in accordance with the provisions of § 3.1326 of this chapter. (58 Stat. 284; 38 U.S.C. 693)

§ 2.1009 *Revision of rating board decisions.* (a) No rating board will reverse or amend, except upon new and material evidence, a decision rendered by the same or any other rating board, or by any appellate authority, except where such reversal or amendment is clearly warranted by a change in law or by a specific change in interpretation thereof specifically provided for in a Veterans' Administration issue; *Provided*, That a rating board may reverse or amend a decision by the same or any other rating board where such reversal or amendment is obviously warranted by a clear and unmistakable error shown by the evidence in file at the time the prior decision was rendered, but in each such case there shall be attached to each copy of the rating a signed statement by the rating board definitely fixing the responsibility for the erroneous decision. (See also § 3.1201 of this chapter.) *Provided, further*, That where the severance of service connection is considered warranted on the facts of record the case file where required by paragraph (d) of this section, will be forwarded without rating to the director of the service concerned in central office, for review, accompanied by a full and clear statement of the underlying reasons and facts. Where the submission with recommendation for severance of service connection is based upon a change of diagnosis it is essential that the requisite medical certificate accepted as showing that the previous diagnosis was not correct be of record in the case file.

No change in (b) or (c).

(d) In those instances wherein the severance of service connection is involved (the burden of proof being on the Government), the claimant will be immediately notified in writing of the contemplated action and the detailed reasons therefor and will be given a reasonable period, not to exceed sixty days, from the date on which such notice is mailed to his last address of record, for the presentation of additional evidence pertinent to the question. This procedure is for application except (1) in case of fraud; (2) in case of a change in law; (3) in case of a change of interpretation of law specifically provided in a Veterans Administration issue; or (4) where the evidence establishes the service connection to be clearly illegal. Severance of service connection not affecting the rate of pension,

1. e., severance where the disability is less than 10% or where after due consideration of the remaining service-connected disabilities, the award will be continued at the same or an increased rate, will not be referred for central office consideration. Final action will be accomplished locally with notification to the veteran of his right of appeal. Severance of service connection under any law, where the error is discovered on the occasion of the first rating following the initial rating granting service connection, will be similarly accomplished locally. In all other instances the cases will be referred for central office consideration and the notice provided above will be given after return of the case file by central office. (See adjudication procedure.)

No change in (e).

§ 2.1011 *Adjudication of applications of veterans residing without the continental limits of the United States.* Applications for disability compensation or pension received from veterans who reside outside the continental limits of the United States, with the exception of the Territory of Alaska, which is under the jurisdiction of the Veterans Administration, Seattle, Washington, will be adjudicated in the claims division, veterans claims service, central office. Accordingly, these applications will be forwarded to central office. This provision does not apply to transients inasmuch as residence beyond the continental limits of the United States must be satisfactorily established. However, such residence will be presumed if three consecutive monthly checks are received at the same address. (§ 35.010)

§ 2.1012 *Adjudication of applications of employee-claimants.* Applications for disability compensation, pension, or subsistence allowance presented by veterans in the employ of the Veterans Administration will be adjudicated in the claims division, veterans claims service, central office. Accordingly, all such applications will be transferred by field offices to central office when an employee-claimant in either the classified or unclassified service or a member-employee has been continuously employed for ninety days: *Provided*, That no adjudication is necessary during such period. If any adjudication is necessary in the case of an employee-claimant during the ninety-day period, such claim will be transferred to central office immediately.

§ 2.1013 *Adjudication of applications of veterans residing in Washington, D. C.* Applications for disability compensation, pension, or subsistence allowance submitted by veterans residing in Washington, D. C., other than in the United States Soldiers Home, will be adjudicated in the regional office, Washington, D. C.

§ 2.1023 *Jurisdiction in death cases.* (a) Applications for death compensation or pension, accrued disability and death compensation or pension (except when all or a part thereof has been deposited to the credit of the veteran in Funds Due Incompetent Beneficiaries), accrued readjustment allowance, subsistence allowance, and burial allowances, will be adjudicated by the appropriate field sta-

tion, when all service rendered by the deceased veteran in the military or naval forces was subsequent to July 15, 1903, *Provided*, That the veteran did not die in service on or after October 8, 1940, except when:

No change in (1).

(2) Any claimant for death benefits resides without the continental limits of the United States (Alaska cases are under the jurisdiction of the Seattle office) or where section 4 or 5, Public No. 144, 78th Congress, is involved.

No change in (3) to (6), inclusive.

(7) Rights of a claimant for death benefits have been forfeited under any act.

No change in (8).

(9) Insurance or adjusted compensation is involved. (Insurance will not be considered to be involved in any case where all allowable insurance benefits have been paid or where there is a running award of monthly instalments of National Service Life Insurance. (See paragraph (c) of this section.)

No change in (10).

(b) Subject to the exceptions outlined in paragraph (a) of this section, the office having possession of the case file (as defined in general procedure) of the veteran at the time of his death will have initial jurisdiction over all claims for death benefits. If no case file was established for the veteran during his lifetime, the office having jurisdiction over the area in which the veteran died will have initial jurisdiction over all claims for such benefits.

(c) The following procedure is applicable in those cases in which the veteran died in service on or after October 8, 1940, or in which insurance is involved (see paragraph (a) (9) of this section):

(1) Jurisdiction is vested in central office only until completion of adjudication of all initial claims for death benefits. Thereafter, such cases will be decentralized to the field station of the Veterans Administration having jurisdiction over the area in which the payee or claimant for death compensation or pension resides, in the following order of preference: (i) Widow; (ii) oldest child; (iii) mother, (iv) father; or to the field station having jurisdiction over the area in which the guardian of such person resides. Cases in which the veteran was not survived by a widow, child or parent who could have legal title to pension or compensation, or cases in which monthly instalments of insurance other than National Service Life Insurance, are being paid, will be retained in central office.

(2) When a case file has been properly decentralized, all adjudication actions, except with respect to insurance benefits, will be accomplished by the field station. Jurisdiction over all insurance phases, including correspondence, is vested exclusively in central office. The subsequent transfer of a case file to central office for any action in connection with insurance benefits will be considered a temporary transfer only, unless a permanent transfer is in order because of other circumstances in the case, in which event the field station will be notified. (37 Stat. 554; 38 U.S.C. 728, 729)

DELEGATION OF AUTHORITY

§ 2.1024 *Delegation of authority to certain employees.* (a) All adjudication officers, assistant adjudication officers, authorization officers, employees designated to act as authorization officers, attorney reviewers, alternate attorney reviewers, senior adjudicators (alternate reviewers), employees designated to act as attorney reviewers, and claims reimbursement authorizers, are hereby delegated authority to make findings and decisions thereon under the applicable laws, regulations, precedents and instructions as to rights of claimants to benefits under all laws administered by the Veterans Administration governing the payment of monetary benefits to veterans and their dependents.

(b) The chairman, central committee on waivers and forfeitures, alternate chairman, central committee on waivers and forfeitures, chairman and alternate chairmen, committee on waivers, are hereby delegated authority to take final action in the waiver of the recovery of payments from any person pursuant to the provisions of title 38, sections 33, 453, 507 (a), and 809, U. S. Code, as amended, subject to any limitations imposed by current regulations and instructions.

(c) The authority delegated by (a) and (b) above, also the authority heretofore delegated to the designated employees individually, will terminate upon separation from service or change to a position not designated in (a) and (b) hereof. Notice of termination of delegated authority as above provided will be sent immediately to the finance officer or payees accounts division, finance service, by the manager, or responsible official in central office. Upon receipt of notice of termination of authority the signature card provided for in § 2.1025 will be removed from the file of authorized signature cards and dead-filed.

§ 2.1025 *Verification of signatures of employees delegated authority under § 2.1024 (a) and (b) hereof.* To insure proper certification of signature of employees delegated authority by § 2.1024 (a) and (b), a 3" x 5" card containing the employee's actual signature and designation, dated and certified by the proper official (signature cards for adjudication officers will be certified by the manager; authorization officers by the adjudication officer, etc.), will be prepared for each person delegated authority by § 2.1024 (a) and (b). This card will be delivered to the finance officer or payees accounts division, finance service. A similar card will be certified to the finance officer for each adjudicator. (43 Stat. 608, 38 U.S.C. 426; 46 Stat. 1016, 38 U.S.C. 11a)

FILING OF CLAIMS AND SUPPORTING EVIDENCE

§ 2.1026 *Application for benefits.* (a) A properly completed and executed Form 526, 526a or 526b, upon receipt by the Veterans' Administration, constitutes an application for benefits indicated below and will be adjudicated under the applicable laws:

Form 526—Veteran's Application for Pension or Compensation for Disability Resulting from Service in the Active Military or Naval Forces of the United States.

Form 526a—Application for Compensation or Pension under Section 31, Public No. 141, 73d Congress, Section 12, Public No. 866, 76th Congress, and Section 2, Paragraph 4, Public No. 16, 78th Congress.

Form 526b—Veteran's Application for Pension for Disability not the Result of Service in the Active Military or Naval Forces of the United States.

Under Executive Order No. 6017, February 7, 1933, appearing in Title 22, page 161, Code of Federal Regulations of the United States of America, and section 1500, Public No. 346, 78th Congress, diplomatic and consular officers of the Department of State are authorized to act as agents of the Veterans' Administration and therefore a formal claim filed in a foreign country will be considered as filed in the Veterans' Administration as of the date of receipt by the State Department representative.

(b) Applications for compensation, pension, or burial allowance, other than claims for pension under the General Law predicated on service prior to April 21, 1898, need not be sworn to but shall be acceptable on the claimant's own certification, shown to have been made with knowledge of the penalties provided by law for false or fraudulent claims, statements, etc. (58 Stat. 284; 38 U.S.C. 693)

§ 2.1027 *Informal claims.* Any communication from or action by a claimant or his duly authorized representative, which clearly indicates an intent to apply for disability or death compensation, pension or subsistence allowance may be considered an informal claim. When an informal claim is received and a formal application is forwarded for execution by the claimant, such application shall be considered as evidence necessary to complete the initial application, and unless a formal application is received within one year from the date it was transmitted for execution by the claimant no award shall be made by virtue of such informal claim. If received within one year in such instances, it will be considered filed as of the date of receipt of the informal claim by the Veterans' Administration. However, a communication received from a service organization, pension attorney, or pension agent may not be accepted as an informal claim, if a power of attorney was not executed at the time the communication was written. In cases not covered by this rule, where the probability of an informal claim appears to be indicated, but the facts are too obscure or complicated for determination, the file will be referred to the director of the service concerned for decision upon the facts in the particular case. When benefits are being resumed under § 3.1299 of this chapter, and an informal claim has been filed for a disability incurred or aggravated in the second period of service, the requirements of the second and third sentences of this paragraph are not for application. Under Executive Order No. 6017, February 7, 1933, appearing in Title 22, page 161, Code of Federal Regulations of the United States of America, and section 1500, Public No. 346, 78th Congress, diplomatic and consular officers

of the Department of State are authorized to act as agents of the Veterans' Administration and therefore an informal claim filed in a foreign country will be considered as filed in the Veterans' Administration as of the date of receipt by the State Department representative. (58 Stat. 284; 38 U.S.C. 693)

§ 2.1032 *Execution of papers in a foreign country.* Any papers required to be executed under oath in a foreign country in connection with a claim for benefits must be authenticated by a United States consular officer or the Department of State.

PROOF OF RELATIONSHIP AND DEPENDENCY

§ 2.1041 *Definition of mother or father under Public No. 2, 73d Congress, Public No. 141, 73d Congress, Public No. 484, 73d Congress, Public No. 269, 74th Congress, Public No. 16, 78th Congress, as amended, and Public No. 346, 78th Congress.* (a) These terms mean a natural mother or father of a veteran, or mother or father of a veteran through legal adoption. The phrase "natural mother" means the biological female parent, whether the veteran was legitimate or illegitimate. In establishing relationship where the dependency of a mother is for consideration the submission of evidence of birth will suffice, as evidence of the mother's marriage in establishing relationship under these circumstances would serve no useful purpose. Where the dependency of a father, as defined in § 35.010 (g) is involved, evidence establishing the parentage, through marriage or otherwise, will be required. On or after July 13, 1943, for the purposes of Public No. 2, 73d Congress, and Public No. 141, 73d Congress, as amended by Public No. 144, 78th Congress, the terms "parent", "father", and "mother" include a father, mother, father through adoption, mother through adoption, and persons who have stood in loco parentis to a member of the military or naval forces at any time prior to entry into active service for a period of not less than one year (not including stepparent, unless such stepparent stood in loco parentis): Provided, That not more than one father and one mother, as defined, shall be recognized in any case, and preference shall be given to such father or mother who actually exercised parental relationship at the time of or most nearly prior to the date of entry into active service by the person who served. (Section 1, Public No. 144, 78th Congress, and section 1500, Public No. 346, 78th Cong.)

(b) The father of an illegitimate child will be considered to be within the meaning of the word "father" as used in the War Risk Insurance Act, or the World War Veterans' Act, 1924, as amended,

upon proof of the existence of the family relationship usual between parent and child at the time the latter entered the service. (43 Stat. 524, 1231; 49 Stat. 614; 57 Stat. 43; 53 Stat. 234; 38 U.S.C. 503, 363, 701, 693)

§ 2.1042 *Definition of child for purposes of Public No. 2, 73d Congress, Public No. 141, 73d Congress, Public No. 484, 73d Congress, Public No. 269, 74th Congress, Public No. 16, 78th Congress, as amended, and Public No. 346, 78th Congress.* The term "child" means a legitimate child or a child legally adopted, unmarried and under the age of eighteen years, unless prior to reaching the age of eighteen the child becomes or has become permanently incapable of self-support by reason of mental or physical defect. Apportioned compensation or pension may be continued under Public No. 2, 73d Congress, as amended by Public No. 78, 73d Congress, after the age of eighteen years but not after the age of twenty-one years on behalf of any child pursuing a course of instruction approved by the Administrator. On or after July 13, 1943, for the purposes of Public No. 2, 73d Congress, and Public No. 141, 73d Congress, as amended by Public No. 144, 78th Congress, the term "child" means a person unmarried and under the age of eighteen years, unless prior to reaching the age of eighteen years the child becomes or has become permanently incapable of self-support by reason of mental or physical defect, who is a legitimate child; a child legally adopted; a stepchild if a member of the man's household; an illegitimate child, but as to the father, only if acknowledged in writing, signed by him or if he has been judicially ordered or decreed to contribute to the child's support or has been, prior to his death judicially decreed to be the putative father of such child, or if he is otherwise shown by evidence satisfactory to the Administrator of Veterans Affairs to be the putative father of such child; as to the mother proof of birth is all that is required: *Provided*, That the payment of pension shall be continued after the eighteenth birthday and until completion of education or training (but not after such child reaches the age of twenty-one years), to any child who is or may hereafter be pursuing a course of instruction at a school, college, academy, seminary, technical institute, or university, particularly designated by him and approved by the Administrator, which shall have agreed to report to the Administrator the termination of attendance of such child, and if any such institution of learning fails to make such report promptly the approval shall be withdrawn. (Section 1, Public No. 144, 78th Congress, and section 1500, Public No. 346, 78th Congress.) (43 Stat. 524, 1231; 49 Stat. 614; 57 Stat. 43; 53 Stat. 234; 38 U.S.C. 503, 363, 701, 693)

The preliminary estimate of the probable cost of the works to be provided the District under said contract is \$15,500,000. It will be necessary, if construction work is to continue beyond the District's present contract construction obligation of \$15,000,000, for the District formally to authorize an increase in its present obligation.

The preliminary estimate of the construction charge per irrigable acre for the works built and to be built under this contract is hereby announced as \$216.00 an acre. This per-acre construction charge is preliminary and subject to readjustment upon completion or termination of the construction program for providing the works to the District under said contract and the ascertainment of the actual cost thereof, and is subject to increase or decrease to the end that the District will pay to the United States the full construction cost as finally determined by the Secretary of the Interior.

The construction charges payable by the District to the United States on account of the above described lands of the District will be due and payable in seventy-eight (78) semi-annual instalments, and will be based upon this preliminary estimate until the actual cost of the works to be provided the District under the said contract is determined and announced. The first of these instalments will be Three and no/100 dollars (\$3.00) per irrigable acre, as the irrigable acreage is shown on the above list of lands, and will be due and payable by the District to the United States on December 31, 1946. Subsequent semi-annual instalments will be due on June 30 and December 31 of each year beginning with 1947, the last instalment to be due and payable within forty (40) years from the date of this notice. The amount of the remaining seventy-seven (77) instalments will be determined and announced by a later public notice or notices.

Pursuant to article 12 (e) of the aforementioned contract, the operation and maintenance charge payable to the United States on behalf of the above described land for 1946 shall be transferred to and paid as a part of the construction obligation.

H. W. BASHORE,
Commissioner.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 13 and 14 of Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Onelda Ltd., Onelda, New York, may increase by no more than 14.25 per cent, its ceiling prices to each class of purchaser for silver plated flatware of its manufacture.

In the judgment of the Regional Administrator of Region II of the Office of Price Administration, the maximum prices established and the regulations prescribed by this order are generally fair and equitable, are necessary to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders No. 9250 and 9599, and do not exceed the general level of prices fixed by Revised Maximum Price Regulation No. 251, and the general level of prices in the area.

The term "re-roofing" includes composition re-roofing such as asphalt shingles and mineral surface roll re-roofing and smooth surface roll re-roofing but does not include wood, metal or slate re-roofing.
